Thread: [\[Bruteforce\]Ultimate Bruteforce V 1.2.1](#)

Crossy - March 26, 2011, 5:03 am

Hi ,
it's my first thread on sharing something

Ultimate Brute force V1.2.1

[img]http://i55.[censored].com/3027wcm.jpg[/img]

Tutorial: Inside it

Update Brutus:

- # Added ability to change the number of streams on the fly "(without the pauses and stops)
- # Fixed bug with displaying Russian characters in Test Mode
- # Added avtootchistka log after the 5k row
- # Changed display of progress in% (now it is much more accurate)
- # Put a new skin
- # Added wallets for donations to poor students programmers on food

Be careful downloading this file. It might be infected, due to he got low post count and no reputation.

Crossy - March 26, 2011, 5:05 am

well i just wanted to share , posted a virus scan .

And you've done the right thing by posting a virus scan report.

If anyone's unsure as to the file's contents, just run this In Sandboxie or a VM. It's as simple as that.

sexynsmartjenny - March 26, 2011, 8:26 am

anyone knows if it works?

HaxinHax - March 26, 2011, 9:44 am

Agreed with mothered, and I'm still afraid to download it.. lol

Xycon - March 26, 2011, 10:43 am

and what does this exactly bruteforce ?
md5?
rar files?

accounts?

zer0day - *March 26, 2011, 10:56 am*

Virus scan checked out, snadboxie showed favorable results, and so did Anubis. It is believed to be clean. The bruteforcer is very detailed with a wide range of options, very comparable to brutus. Thanks for sharing a good tool with us. Enjoy the + Rep, keep it up!

Cry Havoc - *March 26, 2011, 11:12 am*

thanks man! Thisprogram was really helpfull

Emyli - *March 26, 2011, 4:09 pm*

Looks good to me, thank you, Getting quite a collection of programs ^^

Mean - *March 26, 2011, 10:41 pm*

I'll download due to the good feedback.

-Mean

FOOTLONG - *March 26, 2011, 10:54 pm*

looks nice, I will test this out later.

Chris Versaci - *March 26, 2011, 11:05 pm*

Seems nice, though I don't like to brute force.

Crossy - *March 27, 2011, 2:46 am*

thanks for appreciating my work.
it's a very nice brute force tool.

Crossy - *March 28, 2011, 12:45 pm*

*Bumping this thread , is it allowed?
