Thread: Hard to kill other Hackumans?

Patriot - *November 22, 2020, 9:48 pm*
Is it just me or is it hard to kill other Hackumans? I hatch an egg and attack another lvl 1 but it only deals like .2-.3 damage, so I don't finish him off by the time I am out of attacks and they end up getting killed by someone else. :(
Maybe I'm not playing it right?

It helps out a lot to stack eggs. Basically if you collect more than one of a certain color egg by posting or entering lotteries you can upgrade that hackuman, thus increasing all it’s stats like attack and shield.

I believe you can upgrade each up to 10 times.

Had no idea, I've started to play myself, thanks mate!!

Definitely collect eggs so you can keep damaging them. You can wait to grow them until you need them but people like to snipe peoples kills.

depends on the level of egg stack up a few and get it stronger! head over to the lottery as well for some extras

It is difficult, I see that people usually boost their hackumans before even getting a chance to kill anything.

Ye true. I'll try what people suggested in this thread.
Does it matter if I feed a certain egg to a certain monster?

Nope stacking the egg makes the real monster !

Don't worry, with a level 1 hackman it's hard to successfully kill another creature. Upgrade your creature with the same eggs to make it stronger and incubate blue eggs because very cool creatures come out of them??

Ah so I can throw a green egg to a monster I got from a red egg and expect the same results as if I would give it a red egg?

Yeah but you need to stack fully and you need to get into some levels to know the advantages of stacking

Unless you stack that hum with more eggs that stats are not normal and nothing to be worried about.

That would be a great move bro all what have been said will give more power to your hum.
You can only feed green eggs for the the hum that are being raised from green eggs and so as with the ruby and sapphire eggs.

Definitely need to make sure to level him up.

Vibe - *November 23, 2020, 5:47 am*
Level them up by buying cheap eggs in the lottery page. Then attack so you can do higher damage. You can also use invisibility for a while while you strengthen your hackumun!

Try to keep hatching level 1s, much easier to kill at lower levels.

If you mean, if you can stack a green egg on a red egg HUM, then not. You can only Power-Up a HUM with an egg of the same color/type.

How do you upgrade the hackuman with eggs? Literally just can't find the button...

Rezon ® - *November 25, 2020, 3:21 am*
I have tried to play the game but end up getting bored.

Gotta get those 50 kills brother. Can be done in like a weeks time if you get all the eggs beforehand.
