Oh man, are they still milking this? I remember waiting for every episode in season 1.
Then Asuna came in and it all became a chore...

Asuna is actually one of the favorite characters on the show that people who have been watching since S1 love. When she left and it went to the Gun Gale arc/S2 a lot of people dropped it

Also OP idk what you mean by Season 4 but this is the arc that ended in September 2020

Thanks for your reply, If you go to imdb.com and search sword art online (sorry it won't let me link) you see 4 seasons,
S1=25 Episodes
S2=24 Episodes
S3=25 Episodes
S4=23 Episodes

Now S4 final 11 Episodes on IMDb have the same title names as the 11 Episodes on MAL
?

There is no Season 4. Season 3 is divided into a Part 1 and Part 2.

Honestly, I felt the same way at first, even through Season 2, but the Alicization arc has been very enjoyable.

Asuna was actually my favorite character. Can't even say why, but she just has something special.
