MY SCANNERS - THE EASY WAY TO SCAN YOUR FILES

-- -- -- -- --

FIRST THE SCAN4YOU SCANNER

This scanner use Scan4You to check the Files [0/33] AV Engines

Up to 8 MB

[img]http://img857.imageshack.us/img857/7379/screenshot2503201102185.png[/img]

[img]http://img191.imageshack.us/img191/6682/screenshot2503201102195.png[/img]

Coded in Visual Basic Express 2010
Need Microsoft .NET Framework 4

For have the Source Code you can download it --> [here](#)

megaupload direct link

you just need an identifiant and a password of scann4you for put it in the Source Code

-- -- -- -- --

SEGOND A NOVIRUSTHANKS SCANNER

[img]http://img827.imageshack.us/img827/8055/screenshot3004201101414.jpg[/img]

For have the Source Code you can download it --> [here](#)

megaupload direct link

leave a comment for keep a life this thread pls

respect my work and credit me if you use it thank

Hopsin - March 27, 2011, 4:40 am

Thanks for providing the source of this scanner. It might come in handy,appreciated!

Numair - March 27, 2011, 4:57 am

i just downloaded and look the source. Its easy to understand but always input "COMMENTS" so the next one could understand. Anyway thanks for share

VIRUZ™ - March 27, 2011, 7:02 am

thanks for this man im planning on coding one that can login to megaupload and # through proxy then uses a downloader like mipony etc so it will be cool xD it will be a good long project for me

h4yR0 - March 27, 2011, 1:37 pm

to guess, uses a web browser ?

emiak - March 27, 2011, 1:38 pm

(Mar 27, 2011 01:37 PM)h4yR0 Wrote: [\[CITE\]](#) to guess, uses a web browser ?
yes this scanner use a webbrowser

h4yR0 - March 27, 2011, 1:42 pm

(Mar 27, 2011 01:38 PM)emiak Wrote: [\[CITE\]](#) yes this scanner use a webbrowserIt's simple like hell ,
why didn't you tried do it with webrequest ?
I really appreciate your work, but anybody here can easily make this

File size: 10.97 MB ?? really ?
Why it's to large?..

Dotore - March 27, 2011, 1:50 pm

Lmao. Just for you, hidden File Pumper :D ..who knows .. ?^^

OT:

thanks for your share

h4yR0 - March 27, 2011, 1:52 pm

(Mar 27, 2011 01:50 PM)iM0X Wrote: [\[CITE\]](#) Lmao. Just for you, hidden File Pumper :D ..who knows

thanks for your share
I bet it can't be more than 1 mb ?

Dotore - March 27, 2011, 1:55 pm

Yep your right!

Just "faked" this and it got only 600 kb...something fails in your code.. lol

emiak - March 27, 2011, 8:42 pm

OT:

thanks for your share
they are any pb open it and check the code lol and dont execute it they are all ressource inside
picture, icone etcetc etc

Carpenter - March 27, 2011, 10:04 pm

His idea is a good one atleast..

emiak - March 28, 2011, 4:26 am

up for this threadv too short !!!

emiak - March 31, 2011, 6:18 am

up for my thread too short

ident - March 31, 2011, 6:30 am

you have 5 buttons for one task..why?

emiak - March 31, 2011, 4:21 pm

(Mar 31, 2011 06:30 AM)ident Wrote: [\[CITE\]](#) you have 5 buttons for one task..why?
if you can make it better, do it, and post the result, for i can show your scanner ! and all HF can learn !

yeikel - April 4, 2011, 5:48 pm

Link is dead , please re-upload it

aspirin - April 5, 2011, 10:28 am

thank you for sharing it for free.

emiak - April 5, 2011, 7:22 pm

up for my thread !!! too short

Mario - April 5, 2011, 10:53 pm

Dont post this twice on almost the same thing and both threads. Put em both in one thread

emiak - May 1, 2011, 5:04 pm

(Apr 5, 2011 10:53 PM)MMKI Wrote: [\[CITE\]](#) Dont post this twice on almost the same thing and both threads. Put em both in one thread
ok i have do that !!! thank for your advice

sam0016 - May 1, 2011, 6:08 pm

Thanks for the source it should help me.

emiak - May 1, 2011, 8:18 pm

(May 1, 2011 06:08 PM)sam0016 Wrote: [\[CITE\]](#) Thanks for the source it should help me.
thank for you reply ! i m happy if he can help you

LiteFire - May 1, 2011, 8:48 pm

Cool idea, the GUI isn't too hot though.

Hey Look Behind You - May 2, 2011, 1:10 am

Wow! :D wait 1 question! is there a possible way to scan on Scan4You with credits ? O_O

emiak - May 2, 2011, 4:04 pm

(May 2, 2011 01:10 AM)Hey Look Behind You Wrote: [\[CITE\]](#) Wow! :D wait 1 question! is there a possible way to scan on Scan4You with credits ? O_O
hmm i dont understand your question !!

Hey Look Behind You - May 2, 2011, 7:12 pm

Sorry typo! what i mean! without credits!

emiak - May 2, 2011, 9:52 pm

(May 2, 2011 07:12 PM)Hey Look Behind You Wrote: [\[CITE\]](#) Sorry typo! what i mean! without credits!
i dint know ! sorry i cant help you

soft2050 - May 2, 2011, 11:39 pm

Does this use webbrowser and clicking its browser button by selecting its id?

If thats right, then does someone knows how to do so the same with webrequest????

emiak - May 6, 2011, 8:07 am

(May 2, 2011 11:39 PM)soft2050 Wrote: [\[CITE\]](#) Does this use webbrowser and clicking its browser button by selecting its id?

yes if some one can shows with webrequest !!!

Sega™ - May 6, 2011, 8:33 am

thanks for sharing. I'll take a look

emiak - May 15, 2011, 8:25 am

up for my thread !!! too short

Vladyx - May 15, 2011, 8:32 am

(May 15, 2011 08:25 AM)emiak Wrote: [\[CITE\]](#) up for my thread !!! too short
Wow, i will use that for my scan4you scanner thanks.

emiak - May 16, 2011, 12:23 pm

(May 15, 2011 08:32 AM)vladyx Wrote: [\[CITE\]](#) Wow, i will use that for my scan4you scanner thanks.
i m happy if this source can help you ;)

Banks? - May 16, 2011, 1:25 pm

Can you make one for my-avscan?

Coleak - May 28, 2011, 12:01 am

Thanks for the sources, but i must say, your GUI's are garbage.

emiak - May 28, 2011, 4:24 am

(May 28, 2011 12:01 AM)Coleak Wrote: [\[CITE\]](#) Thanks for the sources, but i must say, your GUI's are garbage.

lol like a woman, when you see a friend in the street, some time you says " omg your pants are horrible " !! they are must important, in a source code , we are not a woman !! and you think, for a public source, i need to make a better gui !!!?? be happy to have a source !!! your are not in Premium Sellers Section here !!!

talk only about the code !! dont be stupide !!!

idonotcare - May 28, 2011, 6:48 am

Well, the source code isn't that great because if you want to do it right then you should use the scan4you api.

But i agree, we are not in the permium sellers section, if you don't like it then don't download. At

least its free.

Justice4one - May 28, 2011, 2:37 pm

Yes Marcel, at least it is free and working, and it don't cost 50\$ and NOT working anyway thx man for sharing

emiak - August 11, 2011, 3:33 am

yes it s free ! not like some people here !! (www.hacksecure.fr)

Lize1993 - July 6, 2013, 7:40 pm

Thanks for sharing i was looking for this

SIM-1847363 - July 6, 2013, 11:43 pm

nice work going to look at this thanks

nynno - July 11, 2013, 2:13 pm

Hello,can i have the source code from both scanners?

Thanks in advance.
