I have been ewhoring for 3 years on and off. Used to make 10k a month with minimum effort due to my seo skills. Now i am back into the game. Looking for a partner to bring in the traffic and we do 50/50 on profits. Hit me up

Because he wants you to give him your traffic sources and traffic itself and leave once he starts earning. Isn't it obvious? That is every single users goal who makes a post like this. 10k a month huh ??

If u can make 10k a month, why not simply buy traffic? I don't need 50/50 to bring you traffic, with 100usd every 2 days I can get you 200-300adds every 48h. Even more if you really can go through over 150 adds per day my man.

Traffic is probably the hardest part. After that it's relatively easy to get cash.
