Thread: [Chat Spammer/SMS bomber Program \[Code & Screen shots\]](#)

BETAhkr - August 5, 2009, 3:15 pm

Chat spammer which can be used as a text bomber by using MSN, Yahoo, AIM, AOL Mobile texting is very simple and easy to make.

All you need is 1 textbox, 2 command buttons, And 1 timer.

[IMG]http://i28.[censored].com/2zhqj4l.jpg[/IMG]

The code is very easy & simple.

Button 1 [START BUTTON]

Code Timer1.Enabled = True

Button 2 [STOP BUTTON]

Code Timer1.Enabled = False

Timer1

Code Timer1.Interval = 2000

Sendkeys.Send (Textbox1.Text)

Sendkeys.Send "{ENTER}"

[IMG]http://i26.[censored].com/63yef5.jpg[/IMG]

And that's all you have to do for a quick SMS Bomber.

Mr.CocaineCharlie - August 5, 2009, 3:16 pm

My bad i thought you ment sms bomber Nice.

BETAhkr - August 5, 2009, 3:28 pm

Thank you. :) ****

Mr.CocaineCharlie - August 5, 2009, 3:29 pm

But change the title,Because this aint an sms bomber.

BETAhkr - August 5, 2009, 3:39 pm

Chat Spammer/ SMS Bomber...

Quote: Chat spammer which can be used as a text bomber by using MSN, Yahoo, AIM, AOL Mobile texting is very simple and easy to make.

GoldStar - August 5, 2009, 3:45 pm

so it become msn yahoo spammer = chat spammer not sms spammer but thx for sharing keep your spirit up ^^

BETAhkr - August 5, 2009, 4:42 pm

Go make that program, Go add a number to MSN to mobile IM (which sends the number a SMS Message.

Number should be like this
Ex: +6065551234

Use the program, And tells me if it SMS bombs or not. :)

â~¼*Ê.Ê*½â~ - August 5, 2009, 4:47 pm

Nice! Looks good and thanks for the tut! Keep it up! :D

BETAhkr - August 5, 2009, 5:16 pm

Thank you â~¼*Ê.Ê*½â~ , I will do that.

Deathader - August 6, 2009, 12:47 am

Uhh... Why not use the MSN lib for dealing with msn.. It's a lot smoother.... :D

BETAhkr - August 6, 2009, 6:10 pm

This wasn't mainly used for MSN, Used for anything with a chatbox that would you like to "bomb" or "spam" which can also be used for SMS bombing, and with a few tweaks to the code can be changed into a simple email bomber, but thanks for the heads up with MSN.

catapult - August 12, 2009, 8:25 pm

I tried it out though it dont seem to work ether on msn or yahoo messenger, dont even work for spamming normal chat let alone sms.

Might just be me after all i am kinda new in way.

BETAhkr - August 12, 2009, 8:33 pm

Then you didn't do it write, If you knew what the code meant it would just be obvious that it will work.

You just have to pick a slower interval because if anything your going to fast and your going to be rate limited 2 quick.

catapult - August 12, 2009, 8:40 pm

Ok thanks for the tips, ill try playing around with it and see how it goes.
Sounds like a nice source i can learn from thanks.

BETAhkr - August 12, 2009, 8:44 pm

It's very very basic, Something to get you started.

And if you want to learn a few basic lessons then read these 2 tutorials.

then this one.

<https://hackforums.net/showthread.php?tid=121434>

& comment on them. :P

catapult - August 12, 2009, 8:46 pm

Ok will do cheers for the help.

swatcinema - August 19, 2009, 9:36 pm

very nice program !

BETAhkr - August 19, 2009, 9:58 pm

Thanks.

2short!!!!!!!!!!!!!!!!!!!!

huso69 - August 20, 2009, 3:02 pm

you stole this code from youtube wow noob

BETAhkr - August 20, 2009, 4:28 pm

No? It's a simple chat spammer, It's BASIC sendkeys method...

Who doesn't know this?

If you code in vb .net and you don't know this

your a nub.

get off me.

boygaggoo - May 21, 2011, 2:14 pm

thanks but u how find service provider code for Pakistan.
