I rode whole rules, there's nothing about how to get verified and such. Don't blame me, blame the system.

EDIT: Stanley send me private massage related to this issue, but I was looking few months ago and wasn't able to find it.

Hopefully your not offended by asking but the prices seem a little higher than I'm finding elsewhere, would you consider selling for $30/month? I've found 3 different private ones with full ESP + AImbot Etc for $30-$35/per month that are private invite only.
