Tunasty - March 29, 2011, 9:15 pm

Hello HF, Im back with another Xbox gamertag which i'm giving it out for free tonight. The only problem is that you dont get to choose your own gamertag this time unless u have 800 microsoft poins. I already made one :(but its kinda cool i guess.

GT: Im ddos3r

Well anyways, it has one month gold on it ?

This time i dont have a cool game to play but just guess a number bw 1-20 and i'll pick a random number from random.org

have fun ?

The winner is Nubby!!
