Im fairly certain no such method exist around here, except for ewhoring, and generally selling comodities for agc.

your probably better off earning money on something else, and buying cheap agc from ewhores and similiar if you need them personally, then by trying to buy a way to get gift cards cheap.

I know of a method where you get them for around 78-ish% face value, but it is not really a "method" /

There are some sites, which offers you Amazon Gift Cards for watching ads. I had bots for these kind of sites. With bots you can easily get $20 card a day.

It should still work and some sites are working worldwide. I had custom coded bots, which used

proxies. My bots are not working anymore and Im lazy for fixing them.
