Any on here? Post your collections/stories below ?

I've never personally collected any sneakers, but I'm a big fan of collecting things in general and I fuck with a good looking shoe.

Excited to see what kinda collections folk have on here.

Hm.. I wonder, can we sell physical items on here?

If so I may throw up a listing here as well. (Currently listed on eBay/offerup/etc.)

Hmm I don't recall there being any restrictions on physical items? But I definitely might be wrong. There might not necessarily be a large amount of people wanting to buy on here, but could be worth a shot

Oh shit those are clean as fuck. How much were they?

I've never been fond of Sneaker collections, I'm prob just a basic guy tbh xD

Bought in like-new condition off OfferUp for $60; worth $216 insta sell on StockX (new) (https://stockx.com/nike-air-foamposite-one-shattered-backboard)

Can likely flip them for $120~.

They're fun to collect and with time being DS they only really go up for like-new/new. If you enjoy collecting it's something fun to get into, you can go to retail stores i.e Marshalls and get some pair under StockX insta sell price new in box. Note they do charge a 8-13% fee, I tend to list them on eBay/OfferUp for my lower tier pairs (sub $300) and send to StockX/Goat for listing (not instasell) for higher tier as they authenticate.

I mainly just collected prior but looking into botting/etc on drops now after seeing some Yeezy Day success from friends.

Wow okay thats a good fucking deal. Hmm maybe I should look into flipping some sneakers, though id have to look a lot more into the market.

Right now I'm mostly collecting pokemon cards lmao. Could start flipping them too since I know the market fairly well and its quite popular.

StockX has a full market tracker (size specific) that you can follow; example Spoiler (Click to View)

It's a relatively simple and easy market to get into, botting is overwhelming at first and costly though.

I've always been interested in this business. I'm not a sneakerhead so I feel like I would buy some fake ones and screw myself over. It does sound lucrative!

There's plenty of ways to flip, two most common being retail and botting which has practically 0 chance of getting fakes. If you're looking to hold as an investment or purchase for your own wear StockX/Goat are also authenticated and you can set buy orders @ $1 above the previous.

If you're going in person to a meetup off OfferUp/FB Marketplace you can look up a fakecheck guide for your specific pair, I only really found used to be worth my time as new are other resellers with a markup or fakes.

^ I would also be scared I wouldn't know enough about looks to tell if one is real or fake.

I'd hate to start getting into the market and then buy some fakes and get fucked off the jump

Thanks for the tips! It's much appreciated. I would be looking at retail I think since I want to spend physical cash. I doubt I would be wearing any I'd like to keep it strictly business if I do get involved. I didn't know they have fakecheck guides. I'll look into that! I can see how used is better due to those points. Thanks again!

Thanks again!For retail flipping make sure they are either a really good price used (depends on condition, Goat has a used marketplace which you can lookup each shoe on, try to get at least 50% off from the cheapest pair of similar condition) or new. New in box allows you to insta sell on StockX, simple as shipping them the shoe and being authenticated. You get paid once they're confirmed legit not once the buyer gets them or is 'satisfied' unlike other marketplaces (eBay/local).

Sneakerheads/hypebeasts are usually the most cringe people to exist.

I personally don't collect sneakers, the only thing I used to collect was like hockey cards and hot wheels lol.

I just like collecting/flipping, not in it for personal use to go out in my "$20,000 fit". ?

I wish Foamposites still were popping. They died out big time because of all the weird ass colorways they started dropping.

I used to be HEAVY into sneakers/reselling. But I've been out of the game a bit for a couple years. Still have some decent stuff, few pairs of original 350 yeezys, some random Jordans, supreme af1s, and some other random shit

Apocryphon - *August 4, 2022, 4:50 pm*
Can only say two words about sneakers. It's called "Air Max".

Respectable choice, mine would probably be Lebrons.

All depends. You can go to a local thrift store or similar and find a decent pair that you can clean up and resell for $10-$20 or you can invest in a bot/etc for multiple thousands.

Air Max are some of the few sneakers I genuinely like, apart from Dolce and Gabbana's and Gucci's.

I used to resell a good amount back in 2016-2018 but have lost interest in it. Before I get backlash I'm going to state wear what you like / what you feel comfortable in. I am hardcore into 1.0-3.0 ultra boosts. As a size 14 I respect the jordans but in my mind they're too bulky. I just don't want my feet looking bigger you know. I will say I try to hit on every recent air max drop but take L's. I've tried on dunks and they're just not for me. I'll flip shoes still that I know I can 100% double my money on.

Anyways with that being said here is the collection. This was ~2 years ago. Currently at around ~150 pairs but they collection has not been properly photographed in a long time.

Very impressive collection. We're the same size, I see where you're coming from with jordans/etc but some look really nice.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I don't collect shoes, but have been flipping shoes for the past ~3 years.

My personal rotation is a pair of foam runners, sesame 350s, and my gym shoes (some $30 adidas beaters)

Hey there was a bot on here like a year ago that automatically bought sneakers right when they came out for resale on stockx.
You want me to see if I can find it?

Picked up 10 pair of the slides (resin) on recent drop, bricked pretty hard but decent sales local/external

Building a collection of nice Nikes and some others, not sure it counts as a real collection though to be honest.
