Thread: Disallow new members to post images

**Pikachu** - *October 22, 2022, 10:14 am*

This morning I was greeted to some unpleasant responses from some kid (probably bk randy) and I'm sure I'm not the only one that saw it.

I believe new members shouldn't be able to post images, atleast maybe till they have enough posts or have been on site for x amount of days or something (or just upgraded) just to prevent another porn spam in the future from random butthurt kids.

I like this idea. It’s easy for us members to ignore text blobs of BS. But a image easily caught your attention

Don't worry too much about the spam. Pretty soon I will have it dealt with permanently.

I honestly thought this was ALREADY a thing we did. Last night proves me wrong
