Thread: [FREE] Graphic Designs (Building new Portfolio) -Experienced

Bullup - *October 29, 2023, 4:43 pm*

I've been doing graphic design for over 15 years now, it once started out as a hobby, which turned into a living for me for a couple years, which eventually got replaced by much better incomes.
Now that majority of my incomes are on passive or at least semi-passive, i often have free time left on my hands and just play games or watch Netflix, most often bored so i decided to get back into my hobby again and maybe earn another side income who knows.

Long story short,
I'm building a new portfolio so i'm doing free graphic designs.

I'm extremely experienced in Adobe photoshop and what i find most fun to do are advertisement banners, and informational graphics such as thread designs, so in short, marketing graphics.

If you have interesting work that needs to be done then post your request here as detailed as you can, if i find the job to be interesting i'll send you a Convo for further contact and details, and you'll have a great design in no time.

My conditions:
1. I get to post the design wherever i want as i want it to become part of my portfolio obviously.
2. You do not get the PSD files, image in PNG format only.

What i prefer:
Thread designs
Advertisement banners

What i hate:
GIF
Logos

Will you help me with a thread design ?

Juoku - *November 2, 2023, 4:56 am*
That's pretty awesome, I was just looking to get a thread design for a new service I'm going to offer ?
So, basically I do mobile app development using Flutter and I want to create a professional thread design.

Because it's with Flutter, the apps can be made to run on Android, iOS, Desktop, Mac, Linux and Web.

Let me know if this is something that interests you and we can go more into the details.

Thanks in advance either way mate!

Can I get a free service? And yes I accept your terms! Sent you a DM with my idea!

HostTeraByte - *November 10, 2023, 12:50 am*
Sent you a MSG but no reply from your side!
