Thread: What would be the best way to make 100k in one day ?

XHF Caller - *November 28, 2023, 11:53 am*
as you see the title, I would like to know the best way to earn/do anything to have 100k USD in one day. it is possible ?

OP - is your family held ransom rn?

100k/day is steep and, if there was just some extra hard work you could do in one day to obtain that, I'm sure even the laziest of folks would do so.

100k/day would realistically require a lot of setup and work prior to that -- you'd likely already be a millionaire by the time you were able to achieve that.

EDIT: or pull off a very big heist

Go rob a bank or jewelry store to leak the box.

I consider robbing a bank lil 1

Realistic answer is scamming, robbing or selling drugs, but to achieve any of that you'd have to have some kind of pre-knowledge already. At the point you can make $100k in one day with any of those methods - you'll already be dirty rich

As for legal ways, the first thing that comes to my mind is big hotel chain owners lol

Um good luck with that one lol...

All these horrible responses when there is indeed many ways to achieve this mostly I would say investing or day trading.

Organize a terrorist attack on the president of a rich country like USA. It must be all true. The president must be scared and must believe that he must be killed. And then, at the right moment, you save him or her from the attack. It may even be a higher award than $100k.

Trading is the only way I could think of that yields that kind of opportunity. Leveraging a large enough account size. I know a trader that brings in 6 figures in a few days.

I think There are Few methods by which , We can make Money.

Like

1. Inboxing Email Service.

2. Short Code SMS Service.

3. 18 + adultery Website ads campaign + BHS ads campaign.

4. CPI/ CPA Ads Install Platform for IOS/Android application.

and some more methods for sure would have....

but Most Important , We need to work Hard and learn all techniques to run all such operation.

The best way to make 100k in one day would probably leveraging assets worth that or more. Or I am sure something incredibly illegal.

All 4 methods you listed XHF Caller could certainly be used to make money, but not the amount you seek in 24 hours without incredible scaling, luck, and help.

You definitely need to work hard and apply as many winning techniques as possible.

I Completely agree , The Most Important part of all this is Your Luck ?

You have to build up to it. You don't just wake up and make 100 K without grinding for years to build your skills and reputability.

I heard that the human body and it's parts has a great price if you sell them.

(Obviously just a joke)

The best way would be to close your eyes and visualize yourself with 100k but even here it will not be so easy to visualize
Another method will be to rob a bank but also for this you need a pistol a car ,and its not an easy task as you need some blood and inteligence
Another one will be to sell your organs like a lung and kidney etc but i dont know if you will live 5 years more

Wake up my man and forget about 100k daily and maybe think as goal yearly ,i dont say its imposible but its not easy
