Thread: Smart Email Sorter - Sort emails by webmail, MX, NS, CNAME, TXT, and PTR DNS records

SIM-5525056 - *May 27, 2024, 11:00 am*

Hello guys!

I am sharing with you all, my email address sorter. It is called Smart Email Sorter, it helps to speedily sort out your email addresses by webmail login page, MX, NS, CNAME, TXT, and PTR DNS records

This is a project in progress so feel free to use, share and/or join the project development repository on GitHub at https://github.com/BlovHackingServices/Smart-Email-Sorter/

It currently sorts the following email addresses

Gmail
Google Workspace
Googlemail
Hotmail
Live
MSN
Outlook
Office365
Yahoo
Ymail
AOL
Frontiernet
Sky.com
Verizon
Rocketmail
