Thread: How to start learning Kali

Jacktheman - *April 14, 2025, 12:42 am*
I recently downloaded Kali vm, and I want to learn it to scan the LAN I'm using. What tutorial I should watch? Anyone pls give me some suggestion thanks.

Hello, welcome to HF

The best tool to scan networks is nmap. If you're beginning I highly recommend you to register and start learning / practicing on tryhackme.com

Besides, feel free to read the following thread :
https://hackforums.net/showthread.php?tid=6263412

You can then share your daily progresses here :
https://hackforums.net/showthread.php?tid=6288695
we speak about hacking and motivate each of use to study even a little bit every day

If you have questions you can ask on HF

Don't forget to read the Help Docs

Enjoy your stay !

codecademy does a command line tutorial for you to learn bash.
maybe that could help you get started.

Thanks dude, but I'm using MacBook, and it seems don't allow me to bradge the VM network to the WiFi network card, do I need to buy a WiFi card for MacBook? And which brand should I buy?
