Thread: Looking for list of Canadians that have loans with three popular financial companies

ApexForma - *July 4, 2025, 5:59 am*

I am seeking a list or database of Canadian individuals that includes each person's full name, phone number, email address, and details of the loan they currently have with a number of specific financial companies. If details of the loan are not available, but the list with people just having loans with these companies, that will work also.

Basically you are looking for debt collection data!

I think it's okay to ask for data. I was just asking what exactly you were looking for?
