I would say this is accurate, 3 days for 5 bucks. Not really worth it, plus try not hiding your referral link and people might sign up!

?4???4?™ - April 6, 2011, 1:09 pm

Its better than other PTC site...

But its up to you .. =)

Its up to u..

Investment is for how much max payout u will get ..

If u joined there , see it at upgrade section..

Kurisu Makise - April 6, 2011, 7:56 pm

Yup you sure did get your payment! your payment from IMMORTALBUX!! NOT SYMBUX!! :O!!

Lets see your payment proof shows that the payment senders customer service url/email is:

<http://www.immortalbux.com/> But this payment proof is ment to be related to

<http://www.symbux.com/?ref=d4rkm4n> AND! your link is a REFERAL link which belongs in the REFERRALS section!

So payments proof fake!, Possible scam site

You have all been warned...

?4???4?™ - April 6, 2011, 8:10 pm

You Are Funny Kid ..

I will upload full ss after this..

Sad to say that it's admin is a Filipino like me. But he only chooses which he pays. You need to invest to earn, which is bad. And a lot of complaints about the site that after they upgrade, they got suspended. They do pay, but not all. I know this because the admin is part of our Filipino forum. He is trusted. But because of this site, he lost reputation on our forums. Some do earn, some do not. It's up to you if you're taking the risk. gigi, ajor r aq... natang nok kaya sekor....haha

migasangelo - June 16, 2011, 10:11 am

i registered, pmed d4rk_m4n™ and no answer

i think this is just sh!t... i can't checkout because i need to invest, i can invest the money i already earned but i need \$10 minimum, i will try with referrals... and then i give my feedback

and plus i can't try to invest \$1 the minimal invest is \$7 wich is too high

and the ads don't even show up, every ad i click just got the banner from the ptc and the rest of the page is blank, but i still receive the money

you can do 80 clicks (\$1) every day without referral... but need the invest...

this site is just one of the millions of www.buxhost.com based

Cold blood - June 16, 2011, 2:21 pm
