Thread: (50 bytes) Looking for a Little Support with Google Reviews

grahammiranda13 - *August 26, 2025, 1:56 am*
Hi everyone,

I recently started my own local computer business and I'd really appreciate some support with Google Maps reviews. If you've worked with me or just want to help out, a short review would mean a lot and if you dont have time a 5 start click would be appreciated :)

I can offer 50 bytes per review as a thank-you.

Please only use real accounts—nothing fake. I left my job to pursue this business, so I really want to build it up the right way.

Thanks a ton!

I can't DM but I actually run a site trying to help IT/Low voltage companies find work. Maybe you can check us out and review our page as well?
