JARDERX - April 12, 2011, 1:50 pm

I used his services, he was an amazing help, he guided me through everything, installed everything and made sure everything was working because he went off teamviewer. I had many problems but he managed to sort through them all.

I've had around 3 people try and fix my problem, nobody could. It is finally fixed now thanks to CoolSam.

Thank you so much

Regards
