Thread: Looking to buy entire Rust/CS2 Inventories

Title says it all really.

Already well known on other forums, looking to expand to this forum.

I'm the guy you come to when you don't want the hassle of selling items individually, then figuring out how to link payment methods etc.

I'll take your entire inventory, and pay you in crypto. 5 minute job. no hassle.

If interested, PM me (I have a discord server but not sure if I'm allowed to link it here)
