Hi

Do you crypt blackshades ?

tiagoteam - April 12, 2011, 12:58 pm

Hi,

i send for you my server!

GoldFinger - April 12, 2011, 3:11 pm

He is probably binding your server with his own trojan, watch out!

The Void - April 12, 2011, 5:34 pm

Do you crypt DC?

Thanks a lot!!

Did u receive your server already?

If yes, working & FUD & not binded with own server?

hamzadada5 - May 15, 2011, 8:33 am

can you crypt a stub for me please?

RANA - May 15, 2011, 10:52 am

the reply he did to teamviewer simply says that he knows nothing or that he is simply looking for targets here.

Anyway lets give this guy a chance

pure_d4m - May 15, 2011, 11:17 am

If can do it on TeamViewer,pm me :)

Never trust anyone with -3 reputation. I'd scan it with several programs if I were any of you.

Several? I'd scan it with everything I got + every website excluding virus total, and if I even get the slightest hint of a trojan, I'd ditch it and replace my HDD totally... Or just restore point back an hour xD
