.. That seems a bit pathetic if you actually had to use that method to get decent PSD. I know that is the point of this forum and I am not against hacking. But I think using that on gfx is a bit wrong.

You do realise, he maybe didnt got em off leaked sources? Maybe he spent a while collecting.

Some still do not let you release on your own.

You'd have to read from the original release of the PSD.

People, especially on gfx sites, tend to not allow re-releasing.
