The link : <http://emkei.cz/>

Good social engineering! ?

It's an online spoofer no download needed ?

Pro-xy - April 14, 2011, 9:29 am

No download needed ! It's an online spoofer =)

Lil' Wayne - April 14, 2011, 9:29 am

This is really really old dude!

Harry_Dodson - April 14, 2011, 9:30 am

lol what scan?? hahaha i've been using this site since AGES!! haha its good, but detected by email providers soemtimes...

This is one of my Fav's ;)

Matthew 6:33 - April 14, 2011, 9:30 am

Yea, can't even send a HTML without it going to the trash.

elnio - June 7, 2011, 4:19 pm

if you send mail to hotmail.com accounts mail goes to spam..solution?

mdebleo - June 24, 2011, 8:15 pm

Does this still work? I tried it and didn't get any message

Kill4joy KJ-Vulcan Tools - June 24, 2011, 8:20 pm

Good upload, Nice PHP script, can be very helpful for different techniques like spreading specially with JavaDBs

papyrus - July 22, 2012, 10:52 am

This is really it's old dude but the best i know. no spam for me

RootPassword - July 22, 2012, 12:29 pm

Ive actually had one of my own but it got shutdown :(This one does work very well though. I wonder what web hosting providers support this type of mass email???? Anyone know?

diegoubs - July 27, 2012, 3:43 am

is there any continuos automatic mail spoofer?

Tormentor - July 27, 2012, 3:52 am

Nice share, will definitely use this.

simple and very easy to use

thank you.

smithkane - July 27, 2012, 3:57 am

i need some company traffic, i have rented exploit pack and have my bot, but i need traffic from you.

Sites like . alibaba.com, stonecontact.com, globalsources.com, and many others if you do really have traffic then contact me or pm immediately
