Thread: [Biggest Mistakes Made When E-Whoring.](#)

**Enigma™** - April 15, 2011, 11:58 am

Hey guys,

I've been talking to people who have attempted to E-Whore using various methods but they keep encountering problems such as

- 1) The Slave asking for proof that they're real.
- 2) The Slave ripping them off

These problems will arise for EVERY single one of us at some stage, but theres a few things you can do to reduce the chances of this happening.

## Slave Asking For Proof That You're Real

To solve the problem of guys asking for proof that you're real you can:

- 1) Make sure they have no doubts, act like a girl. Talk like a girl. Grow a vagina and be a f\*cking girl. Don't do or say anything that a girl wouldn't say. you'll be sorry if you do.
- 2) If they do ask for proof, have a female friend who can help you out. Get them to send you a voice clip, and then send this voice clip to your victim ?

## Slave Ripping You Off

To solve the problem of your victim ripping you off:

- 1) Make sure you don't send picture before the money.
- 2) If they ask for a sample, give them one. But keep in mind, if you give them the best you have as a sample they'll have gotten what they want without paying. Some guys will try to use Social Engineering to try and get you to do this, but DO NOT fall for it. Only send them 2 samples, and don't make them the best pictures you have.
- 3) Make sure they send money as a gift, so they can't chargeback. If they send it as anything else, transfer it to another account straight away.

Thanks for reading, and I hope this helped ?
