Thread: [\[VB.Net\]](#) [\[Source\]](#) Shadow NET v1.0 [\[RAT\]](#)

elmedoc - April 17, 2011, 7:05 am

Hello everyone, here is a source of a RAT.

Coded in VB.net.

Thank you to those who helped me.

Not bad at all :) Good luck man ;)

user44 - April 17, 2011, 7:20 am

WOW! Nice.. i download it and watch then. Look very nice!

XiRTAM? - April 17, 2011, 8:00 am

Looks very promising, thank you for this share!

DeathStar™ - April 17, 2011, 8:02 am

Thanks for the share mate,sockets?

Infinitus - April 17, 2011, 8:45 am

This is just based off of public sources, nothing new but, a release none the less. Thanks for the share.

Grond - April 17, 2011, 10:55 am

Thanks men!! I will have a look at the code, looking good!

Obi-Wan Cannabis - April 17, 2011, 10:58 am

Thanks mate! I'm gonna test this right way...
Looks good...

SESTiE - April 17, 2011, 11:44 am

You should post screenshots :D

1NV1518L3 - April 17, 2011, 11:58 am

lol what is download / execute does it download file from internet or hes pc lol :D

ddwyer23 - April 17, 2011, 1:21 pm

downloading as we speak;))

Alison Wonderland - April 17, 2011, 1:26 pm

Is this the source?

THis would be perfect if it had

- 1) Webcam Capture
- 2) Remote Desktop
- 3) Chat with slave.

elmedoc - April 18, 2011, 12:58 am

Yes it is the source, it's coded full in VB.Net !

I migrate for C# to create a more stable rats with more options !

P.R.O.G.R.A.M - April 18, 2011, 1:03 am

The graphics on the Remote Administration Tool is very very nice,

Good work, and thank you for the share,

elmedoc - April 18, 2011, 9:04 am

Thanks P.R.O.G.R.A.M for you vouch !

Well, that sounds interesting. If your C# RAT will be available for free along with source code, it will be a really good contribution to the forum. I have few C# RAT source codes, but they aren't so special. The GUI looks professional, don't change theme, but add a little bit more icons on he dropdown, if you know what I mean :)

ka0 - April 18, 2011, 12:31 pm

This is not your source you haven't code this RAT!!You have add only some public functions!!You are just another leecher so give credits to StarZ!!

E.T - April 18, 2011, 12:51 pm

Be sure next time you have translated all of your topic :p Just because i saw the explication of Crazy CD ...

4saken - April 18, 2011, 4:28 pm

thanks for this source :)
going to download right now

hacphongthan - April 18, 2011, 6:10 pm

nice but i think php rat are better
thanks for your share

inVision - April 18, 2011, 6:37 pm

Nice job looks great, i have used something similar to this. Thanks

elmedoc - April 19, 2011, 3:15 am

@ka0 Yes I know I put the credits ^^

1337x1337 - April 19, 2011, 3:23 am

Looks fun for a joke, But is there a way to resotre all the things? And the Blue scrren of death is it a picture full screen and keyboard/mouse disabled? Or is it a real bsod? :O becuz that is realy funny for a joke.. (if it does not harm the software etc)

Cheers

NiTrO

elmedoc - April 19, 2011, 3:40 am

@NitrOwow The blue screen of death is a real BSOD, to cause the blue screen of death, the server Kill processes critical !

Kid Wiz - April 19, 2011, 9:37 am

you should really add some pics.

carebearlol - April 19, 2011, 10:00 am

Very poor coding, sorry. This application is not resilient in the least bit.

K-Gee - April 19, 2011, 10:26 am

Nice Simple GUI! I Like your Style

ManDoR - April 19, 2011, 12:25 pm

Very Good work !

Ps : Spoiler ([Click to View](#)) Un très bon codeur français ;)

ahmedkulumu - April 25, 2011, 5:46 am

I like this, thank you! :P

Doctor07 - April 25, 2011, 5:55 am

Looks kinda nice dude, good work.

Pen and Paper - April 25, 2011, 7:35 am

lol.

he made this rat from this : <https://hackforums.net/showthread.php?tid=704022>

lol, you should see a pic of my rat(i made it):

anyway , good luck making your rat dude :)

Ritalin - April 25, 2011, 7:54 am

Looks very well coded. Does it have any Codejock references? Cause the GUI does not look like an VB.NET Standard.

But respect for you! You have brought the open-source world a quality piece of work!

elmedoc - April 25, 2011, 8:03 am

@ Ritalin i use Dotnetbar v9 for the gui, you can find the cracked version on the forum =)

@Multi Inject I gave the credits on the first page, it's just a better version !

The Unknown - April 25, 2011, 8:19 am

nice share you got there, thread rated 5/5 by The Unknown and +1 rep for OP, keep up the good work

elmedoc - April 28, 2011, 2:07 am

@The Unknown Thanks, you are a good man =)

CATMAN - April 28, 2011, 3:25 am

Very good contribution,maybe I'll check it out.

sab0ter - April 29, 2011, 11:30 am

but how i can make a server?

ngrBot - April 29, 2011, 2:26 pm

The Trace IP looks nice, Is it using Google maps?

SmokeBongLoads - April 29, 2011, 3:48 pm

Is this stable?

Cause I like my rats stable.

No this is a terrible R.A.T.

elmedoc - April 29, 2011, 11:37 pm

@SmokeBongLoads Hum, check if yourself.

@sab0ter Open the server with Visual Studio 2010 and build the server with your no-ip and your port.

(Apr 29, 2011 03:48 PM)TheMist Wrote: [\[CITE\]](#) No this is a terrible R.A.T.

Is it because it is coded in VB.net?

Vb.net is not good with RATS, but this looks promising anyway! I am going to use this for starters :)
THANKS!

Coderboyz - April 30, 2011, 11:35 pm

looking good gonna try your rat ;)

elmedoc - May 1, 2011, 2:49 am

@MatyrHac

Yes i know, vb.net is not a good for rat.

At moment i code a stealer in vb.net and i learn C++ for code a good crypter ^^

But the source is easy to learn for me !

Nice, it is still pretty cool. I have tried it :)

Works ?

elmedoc - May 14, 2011, 10:07 am

@MatyrHac

Thanks you =)

Cyber-Security - May 14, 2011, 10:13 am

NICE JOB! THANK YOU FOR THE SHARE! You seem like a good coder. If you want you can join CodeStrike. More info is in my signature! :)

elmedoc - May 14, 2011, 11:50 pm

Your team is a good idea , But i don't speak english very good, beacause i'm french....

Good luck for your team.

I search a team french but most french people are lamer...

I prefer to code only.

elmedoc - May 15, 2011, 2:12 am

For get BSOD just kill winlogon.exe =)

It's very easy and it's funny.

ComX - May 15, 2011, 3:01 am

Thanks brow! Nice GUI and RAT You should start make a new version :)

Tr0ne - May 16, 2011, 4:13 am

firedrop really nice share good work keep it up

jackendra - May 28, 2013, 11:40 am

Download?

I tried but I couldnt get to it?

Maybe a direct download !

PLEASE
