Blue Screen of Death - April 18, 2011, 2:29 am

Crack this and PM me how you did it.

Please do not create fake application. I want proof and the method used.

Download: <http://www.mediafire.com/?xad989jcg7cp8q1>
[VirusScan](#)

ScreenShot:

After pressing the button a message box should prompt!

ScreenShot and post here with your name in a notepad.

Nobody managed to crack this yet?

it has many methods to prevent tampering.

If it closes when you press "MAGIC!" is normal. If it doesn't recognizes everything it should, it closes .

EDIT: @Bomblader: Really antisandboxie? Why is that necessary?

Volim te - April 18, 2011, 3:23 am

Oh I see NVM bout that sandboxie comment then LOL

explain how you did it, and accounts are yours.

EDIT: You copied Kobac image and re-uploaded to another site.

Proof

Spoiler ([Click to View](#)) It's a fake :) I was just bored

StaTiX - April 18, 2011, 4:02 am

kobac owns it again

as always

no1me - April 18, 2011, 4:03 am

yhe theres few ways to cheat

Volim te - April 18, 2011, 4:08 am

LOL Fuck I can't find faction in ASM (using OLLYDBG renamed to stop antis lol) can I have a hint?
I am trying to crack it using jumps LOL can you give a hint of what it does to check on the button click?

Yeah , Only Kobac was able to crack this "FOR YOU" if others didn't want to PM you the method :) .

Hint : Use Google and learn .NET reverse engineering. LOL

stop lying.
you are worse than Pinz.
You didn't manage to crack this. you just faked it.

Oh, so that's how he cracks every other crackme in this section?

BaNNED is a good cracker, he just doesn't want to give out his methods. Remember that saying, "A good magician never reveals his secrets"?
