Thread: [Huge Render Pack!](#)

**gravypod.** - April 20, 2011, 1:16 pm

I have had a huge render pack on my computer for a while now. Don't remember the origin of where I got it, but I do not take credit for creating this.

Render: 496

This includes renders of gaming characters, anime, real life, and more!

Your welcome.

Looks awesome, you can never get enough renders haha.

**Uzi?** - October 8, 2011, 8:27 pm

You should add some preview images of the renders before people download them,

I would really like to see what I'm downloading before I begin downloading a pretty large file.

Thank you for sharing though, I appreciate this. :)

**Tsunade** - November 26, 2012, 9:58 pm

That's because it's megaupload.

Here's more sources.
