This is the new and improved version of my ebook. I have 1 review copy..whoever wants to review it post and I will give it to the first person!

If your interested in buying PM me or MSN me at camrymps@hotmail.com. (Please PM me with your MSN before you add me on MSN!)

Enjoy! ?

camrymps - April 21, 2011, 6:44 pm

review copy went to GhostIP!

camrymps - April 21, 2011, 7:04 pm

thank you GhostIP! Anyone want the ebook?

Echt - April 21, 2011, 7:06 pm

noone is allowed to verify ebooks, other than a official reviewer.

camrymps - April 21, 2011, 7:07 pm

ooo so how do i get an official reviewer to review this?

GhostIP - April 21, 2011, 7:11 pm

Okay, Well. Think Of it more as a Vouche, But still. Very nice e book.

camrymps - April 21, 2011, 7:17 pm

sent a review copy to Paradoxum (Official Reviewer)!

GhostIP - April 21, 2011, 7:18 pm

Not Only that i sent a review copy of mine when i did mine to one of them, Its been 3 days and no Review. so why even bother? So i vouched for him.

yihyunsong - April 21, 2011, 9:10 pm

Are the cd-keys NEW & unused? Can they be used for online play such as Starcraft II?

camrymps - April 22, 2011, 5:02 am

yes all cd keys are new and unused. I would also like to mention that this method can NEVER be patched.

review has been accepted!

GhostIP - April 22, 2011, 2:44 pm

the dang admin made my Warning level go up cause i reviewed it :(

EL01 - April 22, 2011, 3:22 pm

What kind of CD keys?

Games for Windows live? EA? Steam?

Hope to see your reply

camrymps - April 22, 2011, 3:49 pm

Just sold one to Brohamed. Thnx bro!

just sold another ebook to evenbor! thnx!

Review (Ratings on a scale of 1-5)

Author: camrymps

Title: How to get game cd-keys FREE!

Pages: 5

Price: \$3/[u]

=====

[u]Rating: 3/5

Quality of Information: The eBook was overall quite clear. The author did a decent job in discussing the information. He could have gone into depth in a little bit more and been a bit more descriptive. It appeared that information that should be included was missing at certain parts.

Rating: 4/5

Ease of Use: The author provided a very clear set of step by step instructions. Virtually anyone should be able to complete them. It may require some practice before successfully executing this eBook, however, if attempted enough times, you should in fact start getting obtaining some game keys.

Rating: 3/5

Layout: The layout was rather basic but got the job done. The author logically separated different sections and lists through out the eBook. Visual aids were included at logical points in order to assist readers in the completion of the eBook.

Rating: 4/5

Grammar: Grammar was adequate. No major grammar or spelling mistakes and there had been no confusion due caused in the eBook due to grammar errors. The few grammar errors which I did find really weren't anything to worry about.

Rating: 2/5

Originality: I have in fact seen this method on HF quite a few times now and I'm sure other's are well aware of it. The author does a better job at explaining it then most other time's which I have seen it.

Notes: The results will really depend on a few factors and will vary for every person.

=====

Overall Rating:

3/5

[IMG]<http://i1020.photobucket.com/albums/af324/GeorgeVF/Official%20Reviewers/Quality2star.png>[/IMG]

-This market is impacted with these kinda E books, I did not find the quality of this guide special or "Great" in any way, the author did spend some time making it though, definitely isn't bad.

[IMG]<http://i1020.photobucket.com/albums/af324/GeorgeVF/Official%20Reviewers/Easeofuse2star.png>[/IMG]

-After trying this method numerous times with several other Ebooks, I find this tactic is all about luck.

-This gets a low rating because I dis like the fact that you have to rely on something witch you have no control of in order to get what you want.

[IMG]<http://i1020.photobucket.com/albums/af324/GeorgeVF/Official%20Reviewers/layout3star.png>[/IMG]

-Layout is quite simple, yet affective.

-Nothing to brag about, yet nothing to complain about either.

[IMG]<http://i1020.photobucket.com/albums/af324/GeorgeVF/Official%20Reviewers/grammar4star.png>[/IMG]

-Grammar is great, very few errors. Took me quite a while to find some.

[IMG]<http://i1020.photobucket.com/albums/af324/GeorgeVF/Official%20Reviewers/Originality1star.png>[/IMG]

-As said earlier in the review, this method is very unoriginal and it seems to me that everyone is

making a E book on social engineering to get free stuff.

[IMG]<http://i1020.photobucket.com/albums/af324/GeorgeVF/Official%20Reviewers/Nots.png>[/IMG]

-If you have never bought an E book on how to get free stuff, this one is cheap and will teach you the basics.

-On the other hand, there is a million guides out there like this, you can probably find some for free.

camrymps - April 30, 2011, 7:57 pm

Since no one is buying this anymore, I have decided to make this free. I put this in the free giveaways section: Here is the link: <https://hackforums.net/showthread.php?tid=1258520>
