Thread: [\[SUGGESTIONS\] New Project \[SUGGESTIONS\]](#)

Nazworth - April 22, 2011, 7:55 pm

Quick Rundown:

I want to start a new project, and I need to know what a lot of people would be interested in buying. I will try to make this project the best I can. Offering Full time support (Support Team & Myself) along with easy access to a web portal for the latest updates and news.

Some things you can offer:

-Create me a web portal - EX: <http://ddoser.info/>

-Support Team

Please NOTE: If you are looking for money for either of the two.

It will be given to you from the funds made from the project.

I might be able to get a simple web portal for you. Depends on what you need.
