e-Whoring FAQ for Noobs

If I don't answer any question you may have visit [The Compass's](#) thread.

[Post Your E-Whore Questions Here by The Compass](#)

What is e-Whoring?

It explains itself. A whore is a whore and e-Whoring means you are an online whore.

Where is a good place to E-whore?

Should i use a VPN when e-Whoring?

Yes. Extra protection never hurts. Ultimately it's your preference.

The Paypal Questions

You have to be extremely careful when dealing with Paypal or you WILL be raped by them and lose your money.

Keep this in mind:

Paypal Website Wrote: Digital Goods – PayPal prohibits all account holders from buying or selling sexually oriented digital goods, including downloadable pictures or videos, subscriptions to websites, or other content delivered through a digital medium.

Do I need to make a new Paypal just for e-Whoring?

Yes.

If I have an unverified Paypal account, can I still send money and buy things with it?

It depends. An unverified US Paypal account has a spending limit of \$0, so you really can't buy

anything without getting limited by Paypal. Canadian accounts have higher spending limits.

ZOMG! Paypal limited my e-Whore account what to do?

For the answer to this question message me and I will walk you step by step on how to un-limit your account.

I want to keep my money without Paypal raping it. What to do? :(

This is what I do, whether you want to do it or not it is entirely up to you. I've tried this several times, and it seems to work just fine. The fake Paypal might get a negative balance and the money you got will be sitting safe in your legit account.

Quote:I. First off you will need a fake verified Paypal account, a legit verified account and a eBay account which is connected with your legit account.

When on your fake account make sure you use a proxy.

II. On your legit eBay account put something up for sale and also put a make offer button on it. Make it over priced so that no legit guy would buy it.

III. Once you have the cash into your fake Paypal go onto eBay and buy out the thing you put up for sale, the make offer button is there just in case you don't get as much cash as you were expecting. Make sure you're using a proxy for this!

IV. Now turn your proxy off and login to your eBay account and confirm the payment ect, now all you need to do is post a piece of paper or anything like that to the fake address so that you get a tracking number, if you put something such as a "virtual item" you should be able to email then an invoice with the details and you should be okay.

I know I'm missing a lot of questions noobs typically ask, so post them here so I can add them to the thread.

Elaborating more on the paypal stuff would be very nice.

Stuff like how to best verify the account, how to tell them to transfer it, how to get it out easily, etc.

Really nice guide, good tip about the paypal no one should be sending money directly from one paypal to the other, they end up getting linked if it happens too much...

What's a good reason (has to be legal) to tell my parents where I'm getting all this ewhoring money from? I told them I sold cracked minecraft accounts and they wanted me to stop since it's illegal.

Another question: when they ask me if I'll meet them, should I make them send me \$ and never meet them or should I just ignore these guys? Right now I'm only selling pics

Kels™ - May 3, 2011, 3:13 am

If they ask try ignoring them, because if you do get the cash they probably will charge back.

I tried posting on Craigslist and it said this:

What do I do?

Hey thanks for the tips ! Paypal/egay stuff will save my us.

I planned on using a web of ewhore pp accounts that all send cash to another unverified and then from that to my real one.

Ebay method is much better.

Could you pm me you msn ? I cant pm you as am new here. (but i love this place already !)

Or answer here ?

I started 3 days ago, and i made 70 \$ with not much work (only third day was pain in the ass - no replies). The main problem i have is that am losing many pervs cos they ask me to do some gestures to know if am real (mainly "wave to me" or "show me middle finger").

Kels™ - May 20, 2011, 3:43 pm

I'll PM you my MSN as I can't post it here. You can always 'make' your own videos and ask for the following.
