Thread: [Free Superpoints Invites ? Invite Only Site ?](#)

Fatality - April 27, 2011, 6:23 pm

All you have to do is post here and PM me. I only have 5 invites right now to this site so its first come first serve.

What is the SuperPoints Network?

The SuperPoints Network is a collection of sites where users can win or earn SuperPoints that can be redeemed for valuable rewards. The sites in the SuperPoints Network currently are RewardLadder.com, LuckySearch.com, and RewardShopping.com.

What are SuperPoints?

SuperPoints are what you collect on the network sites that you can save up for great rewards like gift cards, electronics, or even cars.

How do I get SuperPoints?

There are more ways to get SuperPoints every day. Use LuckySearch.com as your primary search engine, and every time you search, you have a chance to win. When your connections win, you win too. Shop at RewardShopping with your favorite merchants like Target, The Gap, or Macy's and get SuperPoints with every purchase. Tell your friends about SuperPoints at Reward Ladder, and get huge points when your friends sign up. It's easy! You also get points for clicking a lucky button, completing easy offers, and watching videos!

Once again I only have 5 invites so only PM me if you will stay active and are interested in earning easy and free prizes. I will give you all of my tips as well if you want.

Are the sites legit and do they really payout?

I've never heard of them.

Fatality - April 28, 2011, 3:57 pm

Yes they are actually legit. It may take some time in the beginning but that is because this site is new. It is a 24/7 redemption and there is always a full stock so you dont have to wait. It is better to get in now when the site is just starting up so you can enjoy the advancements!
