Looks like the site is off to a good start. I really like the theme and the icon's used, really professional looking forum that is. Going to join up right now and hopefully see what's going on there.

On a side note: Good use of the sections, really presentable.

Really nice forum, I like pretty much everything about it. The plug ins, theme and icons all look very clean.

The Elite - April 29, 2011, 4:15 pm

This is the showcase and reviews section, we don't need two threads.

I only signed up yesterday and already made money!

Zetas - April 30, 2011, 3:06 am

Agreed with The Elite.

One thread is enough.

Crayo - April 30, 2011, 9:27 am

Some people can access it fine, some are saying it's down. I'll try and fix it all today.

Good luck with the forum, but like Elite said, no need to spam this section.
