Info:

This GUI uses resources so you do not need to do with all the coding.

All coding done for the noobs, just c/p it everyone else does.

The code uses the transparent.key.

Er, is it just me or did something happen to the top right of the title bar? Just looks wrong in every aspect.

Deceptive - April 29, 2011, 5:32 pm

This is just images, but I guess it's okay.

What do you mean? The Exit buttons, the white thing or the electric shockwave?

If the white, it's just the transparency.

If the buttons, you don't like them, what is wrong with them?

If the electric, you can change and you don't like it?

The awful electric shockwave bordered by a white line. Looks shocking, but that's just my opinion.

Nice choice of words, "shocking".

:D

ill have to agree with Fake it does look a bit strange with the white border but overall very nice =]

.Astro - April 29, 2011, 10:14 pm

Meh, I hate the border :/.

If you removed it, I'd use it though

versx - April 30, 2011, 1:51 am

Well, personally I do and don't like it, but at least at least you're contributing to the community, so great job and keep it up!

Doctor07 - April 30, 2011, 1:55 am

I like the creativity dude, but you gotta stop with the gay ass shit going on up on the top right, it just looks idiotic and so wrong, only a certain crowd would actually like it, unprofessional but creative.

Goodluck on v3.
