Thread: [Update HF Help Documents.](#)

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Spoiler ([Click to View](#))

Omni replaced the forum name "scam reports" to " Deal Disputes". But he didn't update in HF help documents. So if newbie come and read that , they will be misread and misguided. So the HF helpdocument gurus can update the HF help document. You people say read HF docs, but no one actually has update on it.

That doesn't needs much attention and it's not a biggie.

Are you a robot or some shit?

Anyways, some staff will probably fix it if they feel it's necessary.

I don't see how they will be misguided. Lol, it's basically the same thing and they would have to be pretty stupid to think it's something completely different since it's the only thing that is even close to deal disputes. But I guess he will update it when he can, he just has other things that are much more important to do first.

Just to make HF help documents more better.

Well also [this](#) has to be updated as well. There's a few staff members not on their and there's a few on their that aren't staff or admin anymore. But again, it doesn't really matter..

This has been voiced on multiple occasions no need to bring it up yet again.
