Thread: [\(100% Original App\) Torrent Express - Bind, Clone, Replace, Make Torrent.](#)

i.Code - April 30, 2011, 12:40 pm

Bind your exe with unlimited apps, clone original info each .exe to your new exe and make .torrent file for the app folder.

Video demo with 10 apps roughly 10mins. 1min per App!!!!!!

[Video: <http://www.youtube.com/watch?v=nxGIKRWDIMY>]

After you see it start to goto work on the 23 files, you can skip to 8:00 to watch from when it is finishing the files and the next part.

I will explain roughly the video below.

- BlankForm (Rat-Bot).exe is the exe file i choose to bind with the originals. This is your rat.exe or bot.exe or whatever.

- At the end of the video, i go into the apps directory and show one of the final exe's (Get FLV). The exe looks like the original (icon,info) but when run the blankform.exe(your exe) is run before the installer.

- I copy all the apps to my "Downloads" Folder which uTorrent uses. I Then open all the .torrents and once and quickly press ok,ok,ok,ok on them all. You then see your newly done apps in uTorrent all seeding.

- Then its upto you to spread the torrents the way you want, or spread the apps etc. I have personally left 100+ apps in the program and gone away to come back to them all being done.

With this and some auto torrent uploader like "Quick n Ez Torrent Uploader" You could infect 100+ apps a day and seed them quick. Then just spend the rest of your time getting the .torrents onto torrent sites !!!!

Price:

- PayPal - \$30 (Only for Trusted people with high number of vouchs.)
- LR - \$28
- WebMoney - \$25

There will be updates which i will update buyers on via regular emails. Customers may also request options to be added.

I will offer 2 free copies to Leet/Ubers for review as i am new here.

Msn: pasty_kicks_ass@hotmail.com Email: adampashley@ymail.com - I am online most days(Uk time) but if i am not, i do check my emails on my phone.

Yes, i suck at posting!!! ;) I am in middle of getting leet and getting a sticky etc.

Don't worry about my negative feedback READ what they say.

I have just purchased this. Took him a little longer than expected to send me the files. I have it going through some files now and its really good. I have not seen an app like this before. It will save me loads of time doing my ppi stuff.

Big massive thumbs up from me!

Vouch for SlyUk, knows what he's talking about and the program appears to work! Good luck with sales!

You can find the torrent uploader mentioned in my signature.
