Thread: [31,000 posts in 24 hours](#)

Omniscient - May 1, 2011, 8:52 pm

I just reviewed stats. We hit a record of 31,000 posts in the past 24 hours.

Proof that it's resources that was holding back our growth the past few months. While we did experience some traffic growth we really didn't have any activity growth.

I'm guessing we're going to be regularly doing 30k posts a day now.

For perspective the stat represents one post every 2 1/2 seconds. So there was probably 3-4 new posts since you started to read this post.

Logan - May 1, 2011, 8:53 pm

That is absolutely ridiculous.

This new server is the shit.

There is a lot bigger forums. Hack Forums is only the biggest MyBB or Hacking Forum.

Gaia Online, 4chan, Elitepvpers .. and a lot others are bigger.

Grumpy - May 2, 2011, 6:27 am

That is actually pretty impressive. I know that when I use the New Posts link, reply to a post, go back, I don't see any of the posts that I saw before still there. Seems HF is definitely, the shit.

harris21 - May 2, 2011, 6:28 am

That's a nice record :D I am so excited!

Ryuku - May 2, 2011, 6:35 am

Actually not. Sure Gaia dwarfs us but 4chan isn't a real message board. It's an image board. And elitevppers.de we're bigger than. I know our stats are better for daily activity. Even though they have slightly more posts...they're an older website. They launched in 2004 while we launched in 2007. Yet in about 3-4 weeks we'll have more posts. We also have a much higher Alexa ranking.

Fact is that HF is much newer than most of the biggest forums. We're out pacing them because of our activity. Most real active forums get 10-20k posts a day. We get 25k+.

When it come down to it I think HF is in the top 20 of online forums.

The Osama news is not the only reason for our growth spurt either. Realize this is the first weekend after our server upgrade. This allows for faster and more reliable delivery of our site. Meaning members can post quicker and visit the site more reliably. More visitors and more posts. We had a record day for visitors too. You can't say people woke up and found out Obama got Osama then were like "let's go to HF and post about".

Legitti - May 2, 2011, 11:54 am

I don't know how you're going to continue handling this type of traffic, I can't imagine how many queries your SQL receives.

Grumpy - May 2, 2011, 9:51 pm

So 31,000 posts in 24 hours is HF's new record, right?

So now we need to organize a day to beat that record. We'll totally demolish it. Make like 40k posts. All we need is for every 4th registered member to post once. That's not hard. Considering some people post 50+ times a day. Lets do it!

BacoNbitZ - May 2, 2011, 10:55 pm
