Thread: [\[Tutorial\] How to get your very own Webcam video!](#)

Subject - May 3, 2011, 9:30 am

Hello,

Today I'll show you how to get your very own Webcam video you can use for e-Whoring. Please note that this method is untested, as I don't have time currently. I would also like your positive feedback. If you want to give me negative feedback, then sent me a PM.

What items will we be needing?

You will need a screen recorder. There are many different available, but I recommend a free one called, CamStudio. It can record *.avi, that you will be needing for ManyCam.

A simple editing program. Most Windows OSes have "Windows Movie Maker" installed which works just fine, but I recommend Camtasia Studio 7. It's not a free program, but there can easily be found a crack on Hackforums. If you want a serial for the program, PM me.

Where do I start?

We will be using a site called, My Free Cams (<http://myfreecams.com/>). Why do we use this site? There are a lot of women in the age of 18-30 doing public shows. The idea here is to use CamStudio to record the target doing the following things:
Waving, Air kiss or any other way of saying "Hello".

Chatting (Try to get around 10 minutes of chatting)

A show (stripping, showing tits, ect. - Minimum 5 minutes)

Once you have recorded the above things, continue to the next step.

What do I do with the recording?

Now we want to make loops, that we can use in ManyCam. This is probably the hardest part. There are one thing you want to keep in mind when you edit the recording.

- Make sure that the loops look realistic. What do I mean by realistic? Well you want the start of the clip, and the end of the clip to be look-a-like. Also be sure to check the background! That's a common mistake.

When you have made all your loops, save them.

Congratulations! You have made you very own Webcam video, that you can use for e-Whoring.

Any questions? PM me or post here.

Edit:

I'll be doing a video tutorial when I've time. Enjoy the text tutorial meanwhile.

Well sometimes that's better, as you can "say" what the woman should do. But this is free and easy, and works just as good.

Sometimes yes, but mostly you will be able to find someone that does it all.
