So does anyone still know of a way to track how much time is spent in each section of HF. For instance, I want to know how much time I've spent in the Xbox 360 forum.

Thanks

I assume he is talking about Time not Posts.

@ OP - I believe it's not possible.

Yes I'm referring to time. Like how much time do I spend in the lounge, or the Xbox 360 section, etc...

Darn, that's too bad you can't do it. Thanks for the heads up.

Don't think it's possible to see that. I might be wrong.
