Thread: [\[TUT\] How To Annoy Your Friends/Hates With Phone Call \[Malaysian ONLY\]](#)

? ?? ??? - May 4, 2011, 10:16 pm

Hi, this is not the hacking tutorial, this is how to annoy your friends or your enemy with unknown phone call. Its free.

U can make Police Station call them! Or Bank or Lawyer!!

And this maybe work in Malaysia only but might work on any other country. It depends on your country Yellowpages.

1. Go and visit the yellowpages site: <http://www.yellowpages.com.my/>

2. Then search for any company/office u want them to call your. As example, I search for Lawyer

3. In the ads u will see the Free Call icon at the bottom (refer image below)

4. Then put your friends/enemy number and press the Call Now For Free button. Within a few seconds, your friends/enemy will get a phone call n the operator will redirect to the company office number. :-)

I am American, lived in Malaysia for years...I know some people in Malaysia...I'll try it out and let you know.

[edit]

Yup...works like a charm for malaysian numbers :)
