Dora The InternetExplorer - May 5, 2011, 2:47 pm

CLOSED! OPEN AGAIN ON: N/A!

Reason: People have been sending me there servers on Megaupload, #, and Shitcash! I do not care if you have an account and get money for me downloading it from there, I WILL NOT DO IT! I said, MEDIAFIRE ONLY. Also, people have just been -Repping me. Just because of my previous rep. They don't give me a chance to change. For those who I have crypted for, your welcome, even though you didn't say thank you! I will be closed for a while, until things change.

I am also Binding IF YOU WANT! I WILL do it on TeamViewer if you want. If not, then just PM me your server, and what you want to bind it with. Mediafire ONLY!

All you have to do is PM me your link and I will Crypt it and PM you the link on Mediafire.

YOU MUST HAVE YOUR SERVER ON MEDIAFIRE!

NO Shitcash!

I will PM you the link to your Crypter WITH a Virus scan from NoVirusThanks.Org

check out www.virustotal.com to scan your server. i get 27 out of 44 anti-virus that recognize my sever. Can someone please help me to make it undetectable. I would be rich in two month time . i would glad to pay you
