Thread: [What character do you have the most pictures of?](#)

Professor Pantsu - May 6, 2011, 7:58 am

I have seen a few favorite character threads. But I have not seen a thread about what character do you have the most pictures of. So post the character you have the most pictures of.

For me, it is Nagato Yuki. I got 424 pictures of her and my collection is still growing. None of the pictures were downloaded in a image pack, all of them were saved via right click save as.

Bleach is an anime, not a character.

SavageBoys - May 6, 2011, 8:27 am

Seems like I have more Hatsune Miku/Matryoshka pics than anything else.

Not really anime but meh.

lol 2x. im "yukiholic" too.

$56 + 3 + 2 + 17 + 368 + 344 = 790$ Yuki Nagato images. without the ones that she is in group with other characters.

but the 368 its from an haruhi pack that i got from 4chan, so most of them should be repeted to some in the other folders (save as ones).

Professor Pantsu - May 6, 2011, 8:50 am

I think we should all put are picture together and make a massive HF anime picture and wallpaper pack.

Orpheu - May 6, 2011, 8:57 am

im in.

also 676 miku pics (yeah 85% of them from a pack)

When you have time, think you could upload them to mediafire or some thing? When I have time I will download them and attempt to delete the duplicates between mine and your pictures.

Orpheu - May 6, 2011, 10:00 am

no problem, im uploading to mediafire all my spice and wolf pictures (most os them wallpapers) its going to take a while (like 40 minutes) when im finished i upload all my Yuki Nagato and Miku folders. and the duplicates are also delected :)

I don't usually have a big picture pack of one particular character. Just my favorites from each anime I like. But I do have more Clannad renders than other renders.

Obi-Wan Cannabis - May 6, 2011, 11:29 am

I have 162 images of L from death note!

It's to the point where the shit you guys post is so gay there's no way to troll and make fun of it. This doesn't mean you aren't faggots however.

One of my favorite pictures, if it were any bigger I'd use it as a background... Resizing it makes it look like shit D:

Got lots of random pics of anime characters on my pc D:! Most of them are of Hatsune Miku and Izumi Konata :3.

RMustang - May 6, 2011, 2:18 pm

For me, I have 15 pictures of Roy Mustang from Fullmetal Alchemist :)

You might notice I really favor him over a lot of other characters.

Highest Quality - May 6, 2011, 2:18 pm

Izumi Konata. And a bunch of other randoms:P

5-MeO-DMT - May 6, 2011, 7:41 pm

It's gotta be a close tie between Roy Mustang from FMA, Inuyasha or Ichigo.
