Kyoutu Blue Shine GUI

I felt it had been awhile since I shared something totally free. =] So here is a GUI to (hopefully) make up for it.

So it's a lighter "windows" styled GUI, Something to stand out from all this "DARK RAWR" GUI, lol =]

Please don't remove the credit from the image, hah. That's my only rule, other than that. Go crazy. ^^

Please tell me what you think, enjoy <3

The GUI

Just PM me and we can discuss. ^^

And not at all, I'm glad I inspired you. That's a nice alternative design. ^^

Haha, awesome ^^ Why not just make the template yourself? I did, this is 100% my own work. ^^

I do like the kind of transparent look. I might look into it and purchase it actually.
