So what conclusive Information do you have to backup your claim here?

I'd like to read It.

It's pretty obvious mate... Look at the Virus Scan he provided, 0-20 on NVT..?? when was this..?? 2009? 2010? ... as of now NVT is only upto 6 and totally..totally outdated.

it's either he COPY PASTED it or he's really stupid.

Can someone please delete this thread! We all know the link is infected, so why is it still here?

Evidently, I can read what's documented In the virus scan report. As per my previous post, It's not what I asked.

Drakon posted "Don't download! Backdoored", so I'm requesting Information that supports just that.
