My name is : Eric

My age is : 14

I live in : US, California

My skills are : I have the capability to help for hours long and assist with sale's and everything I am a very experienced worker and i assure you if i put my effort into something i will get it done.

Experience- I have experience on some private server's for donation's and etc. I applied for astonish booter for a admin position a couple of minutes ago. Just trying to spread the word.I am more into support and sale's/More experienced in.

Here are the reasons why i think i deserve this job.

I want to help the customer's of your products grow bigger and help those who feel ignored, i might be busy helping people alot, im nice, kind, and active, and i have lot of time on my hands. I believe if i earned a position to your team, i could help out and make people think im more trustworthy. I do not get mad at anything and I'm usually always happy. Nothing effects me and i know that there are times when someone will get aggravated. Nothing will stop me from doing my job of helping and it will be done responsibly. I also want to help those that get stuck and if there is any complaint i would look into it right away.If someone is cursing at me and yelling i don't flip out, i simply try to handle it out calmly

I believe i could get the job done and help your customers get accustomed to the product's. I'm a very successful person and if i put my effort into something i will accomplish my goals. My goal is to help your website so it could get to get better than it already is and make the customer's happy and feel acknowledged, I think its not about just becoming a support member just because just for the cash. No that's not it its about making it better for everyone and making it a goal to make your customer's feel special inside about being a customer of your service.

I speak Fluent English and Spanish so it will make your team look more professional than it already is. I am studying right now learning Chinese so it wont be a problem helping others that have problems speaking english.

Private message me if your more interested or in need of interviewing me.

Regard's,

Eric.

Do you run any other booters?

i dont run any but i just sent my resume to Astonish booter's owner for a admin position.

I hope you consider my application and good luck to all applicants!

Regard's

Eric.
