12-5-2011: Worked on the fade in effect, need some feedback!

Will need some beta testers.. Who will help me?

[code to long to post here]

Know Buggs

If you use the Textbox in the groupbox it fucks up.. Trying to fix that..

Memory Leaks (Aeonshack)

Set up

1. Create a new class

2. Add the pastebin code

3. add the theme

4. Debug it once

5. stop debugging and add the rest of the controls!

Please post a feedback, it feels nice when people are doing that! Thanks for ya time

Enjoy and give some proper credits!

Looks cool 'sept the color.. ew brown :P

xSilent - May 11, 2011, 1:34 pm

Nice GUI Dude!

Looks like a new theme maker is in town.

I have absolutely no patience for things like this so power to you guys! ?

Add them and then just run it once, i think that works..

xDowwdeen - May 11, 2011, 2:01 pm

OMG Thanks soo much

I would have thought u would have sold this.

Chers

Banks? - May 11, 2011, 2:01 pm

Umm... I get an unhandled exception like stefstot

marvinn - May 11, 2011, 2:13 pm

tomorrow
run it as in?

debug or build because trying to build / run the theme wont import due to exception.

RiperFish - May 11, 2011, 2:17 pm

Great Theme man :).

I think we will have our next Aeonhack xD.Good Luck .

Ahh, didn't see your post before, it works. Thanks!

Also, can you maybe add a tabgroup?

Stenography - May 11, 2011, 3:36 pm

WoW !

Looks sick man. I think we got new 'Aeonhack' in the town ! :D

Really appreciate man thank you.

Cyber-Security - May 11, 2011, 5:37 pm

Nice!

What do you add the code to?

Thanks in advance!

Just like AeonHack themes. Add a new class, then paste the code in, then debug, add the theme to your form, and debug again, and it should work.

codepoet - May 11, 2011, 6:35 pm

Very nice work on this theme mate.

antigeek - May 11, 2011, 6:55 pm

Past bin not loading for me anyway you can repast it?

versx - May 11, 2011, 10:04 pm

Great work Marvin, it's nice to see people messing with GDI+ more. Keep it up.

Also to everyone that doesn't like the brown for whatever reason, just change the color yourself lol.

GREENEXXX - May 11, 2011, 11:28 pm

If only i knew how to code : D GUI's i can make GUI's but not CODE IT TO VB.NET also 10/10! <3 sick... but if the colors were more Darker... blackish or WHITISH ..

tflo - May 11, 2011, 11:43 pm

Awesome work! Everything looks great! I love the rounded edges on TextBoxes!

MaxPain - May 11, 2011, 11:53 pm

Awesome Work Dude , Making a Theme in Black Or Red Will be a great idea <3 i really like this them :D

willbebacksoon - May 12, 2011, 12:44 am

Awesome i was waiting for it & you finally done it my man...

N3oNight - May 12, 2011, 1:31 am

Thanks for the New Gui...

Will use in my New crypter..

I think that you are smart enough to fix theme. ???? ??? ??????

Great job marvin...but you need to make some fixes if you want to avoid people here telling you why it's "through exceptions?".

?

6e756c6c - May 12, 2011, 5:23 am

Just a friendly heads up, you have some pretty major memory leaks (kinda). Most of them will eventually be garbage collected but they may run up to 40mb-100mb of ram before that happens. I tested it with just 4 buttons and got it up to 40mb memory usage and 20% CPU.

VeNoMz - May 12, 2011, 7:09 am

Nice job, i'll have a look at the GUI now, i might use it for my shell checker that i'm making.
Thanks.

HazXoD3D - May 12, 2011, 7:21 am

It's there property done or it's for an example the orig. textbox or rounded two seperated controls or if you shall change the color on the progressbars you mustn't change in the source/code...Does u uses propertise for all nessesserly things, can you change font, forecolor or aligment?

Overall i think it's a great work and i would love to see you coperate with AeonHack ;)

xCocaine - May 12, 2011, 7:34 am

Didn't tested but i like it, good job :D

xGin - May 12, 2011, 10:00 am

well if you look @ the very bottom of the code will it say: Created by Aeonhack

Spoiler [\(Click to View\)](#)

marvinn - May 12, 2011, 10:08 am

The draw class yeah.. Not the controls..

P4nd3m1k - May 12, 2011, 10:20 am

Thanks, good job man,i like..XD

Thank you, it's beta atm cuz I'm working on it and I just released some new stuff

Turmoil - May 12, 2011, 6:55 pm

Haha good job bro, makes me think of aeonhack

.Astro - May 12, 2011, 6:58 pm

Love it, although the color scheme isn't my favorite, at least it's something different.

Good job on this, I wouldn't be able to complete something like this without rage quitting

hav0c1995 - May 15, 2011, 5:41 am

Marvinn, I am having only one problem which is that whenever I minimize my program, i get an error!

How does the ComboBox work?

If CyperxComboBox1.SeletedItem Then

EndIf

Don't work
