In that case. I want \$4000. You can send it to my paypal.

There is a .exe included.

Guys it's just the FBContrller someone made god knows how long ago.

It doesn't actually work. Or at least the other one didn't. And I was the one who found it to be infected after decompiling it.

-Viral. Just so everyone knows, the contents are fbcontroller.htm, fbcontroller_files and then fbcontroller.zip the .zip contains fbcontroller.exe, fbcontroller.bat and cookies.txt
