Thread: [\[List\] Beginner program ideas.](#)

StarZ - May 12, 2011, 1:35 pm

Here are some programs which you can attempt to make to help you expand your programming knowledge.

Screenshot taker with image upload. >> Example: Gyazo.

Downloader W/Progress.

E-Mailer.

E-Mail Bomber.

Text Bomber.

SMS Bomber.

Game trainer.

Advanced Paint Program.

Archery Game.

Snippet Manager.

Password list generator.

Chat program using Sockets.

Chat program using PHP.

Web Browser.

Batch File scanner.

Download Manager.

Calculator.

Auto Typers.

Experiment with CodeDom. >> Example: <https://hackforums.net/showthread.php?tid=654393>

Unlimited file downloader. >> Example: <https://hackforums.net/showthread.php?tid=375052>

Experiment with different protection methods. >> Example:
<https://hackforums.net/showthread.php?tid=1048118>

Pattern generator. >> Example: <https://hackforums.net/showthread.php?tid=1077287>

Portable .net IDE. >> Example: <https://hackforums.net/showthread.php?tid=682392>

Unique Executable Generator. >> Example: <https://hackforums.net/showthread.php?tid=551700>

Scantime Crypter With an optional USG. >> Example:
<https://hackforums.net/showthread.php?tid=653397>

Reverse Connection RAT. >> Example: <https://hackforums.net/showthread.php?tid=704022>

Search for other peoples ideas, And try to work them out until they are functional. Hopefully some of these things will help you on your journey to being a .net programmer. Have fun.
If you have any other ideas, Please post them below.

Automatic Coding - November 6, 2011, 12:26 am

I like to code, I've done the following:

Screenshot taker with image upload. >> Example: Gyazo. Never done.

Downloader W/Progress. Done with java (reads each byte one by one), C# (pre-built function) and VB.net (pre-built function)

E-Mailer. Done in VB.net (pre-built function)

E-Mail Bomber. Done in VB.net (pre-built function)

Text Bomber. Last I checked, that's a email bomber.

SMS Bomber. What? Above.

Game trainer. Never.

Advanced Paint Program. Never.

```
Archery Game. for(int i = 50; i > 0; i--) {  
height++;x+=2;  
}  
for(int i = 150; i > 0; i++) {  
height--:x+=2;  
}
```

Snippet Manager. ??

Password list generator. ??

Chat program using Sockets. Done.

Chat program using PHP. Done in javascript.

Web Browser. Done in VB.net.

Batch File scanner. Not done, I made a generator

Download Manager. ??

Calculator. Done in every language I know

Auto Typers. Done in java and VB.net

Experiment with CodeDom. >> Example: <https://hackforums.net/showthread.php?tid=654393> Never done

Unlimited file downloader. >> Example: <https://hackforums.net/showthread.php?tid=375052> Never done (I have made a porn image downloader, that goes on forever)

Experiment with different protection methods. >> Example: <https://hackforums.net/showthread.php?tid=1048118> Never done.

Pattern generator. >> Example: <https://hackforums.net/showthread.php?tid=1077287> ?? Too lazy to download. If regex, regexpal.com

Portable .net IDE. >> Example: <https://hackforums.net/showthread.php?tid=682392> Never done.

Unique Executable Generator. >> Example: <https://hackforums.net/showthread.php?tid=551700> ??

Scantime Crypter With an optional USG. >> Example: <https://hackforums.net/showthread.php?tid=653397> Never done.

Reverse Connection RAT. >> Example: <https://hackforums.net/showthread.php?tid=704022> Sort of done, it wasn't a rat.

Though, Y U MAKE ME DO ALL THAT? FK SKYPE.

iolaka - November 6, 2011, 12:33 am

Nice list.

Game trainers are fun to make ?
