Thread: [\[WIN L33T\] Why do you deserve L33T? \[WIN L33T\]](#)

The Archetype - May 12, 2011, 8:53 pm

Tell me why you deserve L33T instead of somebody else. Sob stories have no effect on me so don't even start with those.

I'll leave this contest go for at least a week and see who I can narrow it down to.

Also, do not PM me about L33T. PMing me about L33T will disqualify you from this contest, period.

Mr. Cash - May 12, 2011, 9:05 pm

I believe I should win leet because I'm progressing to becoming a better member. I know its early and I will probably not win but if I were to win I would love to post more content for leets and encourage other members to post quality threads. I like to program and help others with programming so I would probably spend most of the time in that section. If you were to give me leet I could also afford to do some fun contests for other members. I really hope you pick me.

Whiz4rd - May 12, 2011, 9:11 pm

Here are the things that I / You should consider / why do I deserve to be l33t.

I have been here for a long time (not that long about a year)
I have been joking around , posting some not that useful thread (not useless)
I had been joining few Member Upgrade Contest but I never did won :(and
I also have Positive (+) Repurtaions :)

and I think I deserve L33T, But if others are more deserving then give it to them :). Hope I win / Maybe not :l .

?

Thank You Very Much.

iceman01 - May 13, 2011, 12:46 am

I deserve l33t because I'm an old member of this forum since 2009 and I have made my little contribution on this forum

PS: also have searched a lot for your drivers :)

Polymath 1.0 - May 13, 2011, 1:12 am

I have never felt comfortable selling myself, as I believe a person is better served by humility than arrogance. So I'll leave it to my deeds, history and the comments of others on HF to speak either for or against my worthiness.

Take care

?15 rep in 4 dayz not a hf recorD !

i made like 30 repz with 30 post in 3 dayz :)

I personally would like it , but there are others who probably deserve it more then me. I have contributed to this forum by helping new members and old members with there questions. i have been active in the community, as well as hosting several members events in the past.

The thing is i truly LOVE hackforums, and plan on being a member here for a loong time. The forum is much more high-quality than most with much more mature, caring, and all around decent members. I also have accomplished a plethora of tasks by using this website. I have educated myself about the dark world of hacking ;) When I joined I thought DDOSing kids were 1337 h4x0rz. Now i know this is false. I currently have my own RAT setup with about 50-75 slaves on and off, and the best part is I crypted it myself! All around this is the best forums i have ever been a part of, and it

is by a longshot. If you look at my posts I know you will see that what I say is true.

P.s. I know you don't really care but, I have been on here for 6-7 months it's just I recently decided to make a new account and become active. (My old account was named beastmonger1)

Thanks for the consideration bruh.

Frequenceh - May 13, 2011, 5:39 pm

I think i deserve l33t, because i have donated alot of time to these forums, but not money because of my home situation, I don't have money but i don't have time, and most of the times i have to spend my money on fighting lessons so i don't get bullied.

I have given alot of money to 1337.gh0st and gave away free ebooks, every time i tried selling them for money just to buy ub3r, i ended up giving them away for free.

That's why i think i deserve it.

Also, i'm quite active and have just reached 1000 posts, 1 post after this.

I believe I deserve l33t because although i'm from a different site, I came here and am trying to get trusted and respected. At the moment, people with 70 posts and 3 rep arent trusted, nor respected at all. L33t would help me become respected and help me contribute to this site. (Such as instead of selling my eBooks/tuts I'd give them away for free.)

Thanks for doing this by the way, I appreciate it.

Again, i will post this and explain why i deserve this upgrade. Feels like im spamming because i have posted this on 2-3 threads to try and get this upgrade as much as possible. Here is why i think i deserve it. I'm a new member, but high quality.

I think i deserve the upgrade because im always online, i post high quality and always have done since ive joined, i understand that i am a new member but im making high quality posts. I'm trying my best to contribute to the forums, im always ready to help people with any help they need. I have knowledge in a lot of stuff, i code in many different languages and have knowledge in nearly every programming language. I'm not just some skid that joins a forum, wants to know how to hack. I've been there and done that, ive been on the webs now for many many years, im ready to help people with the knowledge i know.

I think if i have ub3r or 1337 i will actually post more than i am doing now. This is because it makes me look more respected and gives me more confidence in helping users, and they will trust me and have confidence that i am a legit guy wanting to help. I'm a very nice guy i wouldn't scam anyone and never would, i think that scammers don't deserve to be apart of such a great community like hackforums and thats what ruins it and same with the people that troll and flame.

I understand the requirements and understand that your not allowed any negative rep, but i can assure you the rep that was given to me was just by someone that didn't like me and i didn't actually do anything wrong, honestly. If you look at nearly all of my posts you will see that im a nice guy and post high quality and have respect for every forum member, im a very very new guy to the forums and have been around for a while, ive known hackforums for a few years now and decided to give it a try.

I think i deserve this as i would really like the upgrade of ub3r or 1337, i think that i can be a very very well respected user on here and will remain active for many many years, ive been active on many forums before such as the big security boards like r00tsecurity and goverment security, since these boards are no longer active i am ready to start on another board like hackforums. I understand this post is pretty long and it shows how much i want this upgrade, i have very very little knowledge

when it comes to internet marketing so im very very LOW on cash but learning new methods on gain money so its people like you i need to allow me to be upgraded.

I'm a very very respected and active user, i think i really deserve this upgrade, please make a wise decision of this, and i can assure you if you upgrade me to more of a respected user group i will assure you won't be disappointed and will see me around the forums as a respected, well known, user.

Thanks again,

- Loyd.

infas - May 19, 2011, 8:15 am

I don't really know if i deserve that. But I strongly believe that l33t would boost me up a lot. I like visiting these forums everyday, reading tuts makes me wiser from time to time, don't mention my low post count so far :/. L33t status would be a nice gate for me to make a breakthrough on these forums, so that would improve my I.T. skills, as I'm studying it now at the university. :]

Cyber-Security - May 19, 2011, 5:41 pm

Why do I deserve l33t? Let me see....here I go:

Let me define the word deserve. You deserve something when you try. This post really is HQ so...I am trying right now. ?

So, let's start.

Well, first of all I am a very honest and kind member of HF. I don't flame. I don't scam. I don't troll. I don't even swear! I am also not afraid to speak out for what I believe. I have recently formed a group called Troll Hunters. Of course I'm going to get -rep from many trolls but what the heck, I am speaking for what I believe!

Additionally, I am a HQ member. I also report about 5 posts each day, usually for the "" ones.

Furthermore, I have great grammar. You may check this post for any grammar mistakes. You will

not find any at all.

Moreover, when I aid members in need, instead of saying things like "Noob use the fu*c*ing search bar." I don't like people who make other members feel bad.

Similarly, when I ask for things I ask very kindly and add an extra dose of complete kindness. ?

Also, I cannot buy a L33t account. I am not allowed to have any online money holders. And as I said, I am honest so I will not break this rule.

On top of that, I am an HF addict. It's a bad thing. I have to admit. I come home from school, turn on my computer, go on HF the whole day, then go to sleep (excluding the eating and bathroom time). On weekends I go on when I wake up. I have gained computer eye strain because of this. I am learning how to deal with this by using a timer.

These are the reasons why I deserve L33T.

I am sorry for wasting all your time on my boring little life story.

I hope you choose me for this upgrade. ?

I want to be a L33T because, I'm here not for bad stuffs but for learning, I would like to maximize my knowledge and learn wide informations about Hacking.. Ethical or Unethica, it doesn't matter. That's all, I guess I do not need to beg, if I won it, I deserved it.

I think I deserve leet upgrade because of following reasons.

First of all I am member here on HF for 2 and half years.

Second reason I am active and I help members.

As for what I did for people here on HF:

-I made GFX work; 17 signs, 8 avatars, some banners and I made 4 youtube backgrounds.

-I gave away R.A.T.s, and I did some free crypting.

-Every day I try to answer as much questions new members ask in Beginner hacking section.

-I don't flame people that made a mistake I just direct them in right way.

As for post and threads I posted some tutorials:

I am active and will stay here for a while more, leet would give me even more reason to keep helping and giving back to HF.

I believe that I deserve this and if not I hope someone else who made more contribution than me should win.

I give a vouch to Archetype.

I would like to put a member in the contest, I don't think he has, and he really deserves l33t.

Why should he receive l33t?

HaX0r^ is always out and about helping others who do not understand something on a particular topic. He is the one who has helped me with SQL Injection, and continues to do so. He is very friendly, and I think he deserves l33t because he has earned quite enough respect from others, if you look at his rep and posts. If HaX0r^ receives l33t I'm sure he'll be encouraged to help even more on the site.

HaX0r^ also helps websites out by means of SQL Injection. I haven't seen a thread of his where he completely destroys a website and deletes the information - which shows he just wants to help out. Therefore I really want him to receive l33t.

Tutorials he has made:

[100 Hacking Related Tutorials](#)

Giveaways he has made:

Other information:

Now it might not seem a lot but that is because HaX0r^ has not got Paypal. If he did, he'd give away much more.

Thanks! ?

#1. Tell me why I should pick you:

I believe you should pick me for a variety of reasons. Firstly, I feel i'm high quality, I report posts often and accurately, i've offered a few services for Hackforums, and try and give help whenever possible to the best of my knowledge. I desire l33t to be able to +rep people who deserve it, and to try and stop being thought of as an easy target by scammers.

#2. Tell me why you can't just do it yourself:

Since i've joined HF, I made a vow that i'd earn l33t, and use the money to upgrade someone else.?

Slight editing of plans: Get your bid in by 11:59PM EST Friday night, and I will use this weekend to sift and sort to choose a winner. I would do it Friday night, but I'll be asleep to gear up for Saturday, which will be rather busy for me. Monday is Memorial day, so for me to announce the winner Monday would only be appropriate. :D

Also, if you wish to nominate someone, you are more than welcome!
