Hey Guys.

I'll buy 5x L33t and 2x Ub3r, so 7 happy Winners can just get it.

Just do that, what [The Archetype](#) said (See the Quote.)

Also, do not PM me about L33T. PMing me about L33T will disqualify you from this contest, period.

Kels™ - May 12, 2011, 9:52 pm

I deserve l33t because I am a great help to the HF community. I give advice on Paypal and Craigslist that help. I have a thread in the E-whoring section to help people new to the game. This thread can be found here: [e-Whoring FAQ for Noobs](#). I have helped numerous members, and that is why I deserve, not just want l33t. I dedicate a lot of my time to this site. I also follow the forum rules, and have received +6 rep and around 270 post in less than a month.

Bonus: This is not a sob story :D

LilBTheBasedGod - May 12, 2011, 9:56 pm

I should get L33T because I am L33T and I liek mudkipz

Interwebz - May 12, 2011, 10:01 pm

I would like to have l33t because, well, its better. Simply because it is way more beneficial as it has features such as name changes, respect, free stuff from other ub3rs and l33ts and I can vouch people who I think are awesome and deserve it :)

I would love this so very much, so please consider me. Thank you ^_^

indicud - May 12, 2011, 10:02 pm

I deserve leet because I'm not a newphag like everyone in here. I also got repfucked twice and recoverd from -40 twice.

SIM-729179 - May 12, 2011, 10:09 pm

I believe I deserve L33T because I am a very honest person. I spend time in multiple threads helping people out. I report banned subjects, and I spend a great deal of my time dedicated to this site. I am always looking for ways to help people out :)

So people can request more in my sig/avi shop since my work isn't bad and I haven't got any sales yet. ./ I also haven't been breaking any rules, doing anything bad and I'll try to help out as much as I can.

Hell Guardian - May 12, 2011, 11:16 pm

Every one says "I deserve!" Which i see a little bit self-conceited So instead i will say why i want to have leet,i am very active in the Coding Section and i help every one in there and i think leet will be a good step for me and will make me get more active and contribute more to the Forum and help beginners out to become at least intermediate coders

ckay2010 - May 12, 2011, 11:20 pm

Well I was thinking about upgrading to l33t because I really like my time here on the forum! And it would be awesome to give others + or - rep!! :D I'm not saying I deserve it, I'm just saying that I don't mind winning it... :P

jLittle , I would just like to recommend my friend, [majidemo](#), for he's a good guy, HQ at times and pretty informative and helpful to our fellow members. You might now know him but I assure you won't be wasting your money on upgrading this guy, and a lot of people would be thankful (yea, there are lot of friends of him).

and lastly, jLittle, it's really astonishing to see a good, sharing member like you whose actions are those who keep this lovely forum alive, thanks in advance to you and I hope you'll have a nice day.

I think my friend deserves l33t. First of all, this girl loves hacking and gfx. She has +reps too. She has also a free service although some people flame her but she just ignores them. She's a positive person and nice to be with and very nice to talk to. Her username here is

Drag00n # The Hacker - May 13, 2011, 1:49 am

I think i need L33t because i am here on HF from beginning of 2010.This is my new account on HF, my old account was laqimak and its dead now you can see it here <https://hackforums.net/member.php?act...228422> .And i think i need l33t to grow my knowledge here on HF.

My Application:

UserName: Drag00n # The Hacker

Country/State: Serbia

Skills:

- Hacking Web Servers and Sites(On BackTrack)
- Using Exploits and making them.
- Good at Graphics.
- Very good at VB.net and C++ .
- Very good in Dreamweaver Website building.
- Working on iPhone Unlock and Jailbreak software.
- Know how to help members of HF on real way.

How can you contribute to members of L33t: In many ways. By helping them and always be there for them.

Reason why you want to join: I am here from beginning or 2010. I knew much and i want to know more.

Why do you deserve to have L33t: Because of my range of knowledge and being human to another members of HF on a good way.

c0priv4 - May 13, 2011, 1:58 am

I think that i deserve leet because i still need to learn a lot of things about hacking, and coding. Hacking isn't when you set up rat, or stiler, and when you got leet a many many "doors" are open to you in hf. I didn't scam anybody, and i will never do. I would buy it, but i can't because there is no paypal or stuff like that in my country.

014715 - May 13, 2011, 2:10 am

I think I deserve L33T, because I help people and have a few contest held. I am over 10 months member of this forum and I'm also very active.

I also report spam posts so I help keeping the forum clean.

And I want L33T to change my username. ?

Thanks for this L33T/UB3R Contest by the way ?

I love hf as i love myself. That's all dude.

I dont wanna make it l0ng like they did. That's me straight to the point.

First of all, thanks again to ?L???L? for this wonderful contest for this will be a great help for our community and also for our members.

I would love to apply for an ub3r upgrade,... First and foremost I've been an active member, not just by being active but in a helpful way as a part of this great community. I've shared a lot in this forum, from my resources to my personal experiences that may surely be a great pleasure for everyone. I couldn't just list it here for most of them are through PMs and posts, it's just the way I am, it always

have been a pleasure for me every time I help other members, it seems to be my hobby.

I might not have great threads to share but I have a lot of priceless things shared and achieved in my life. I hope everything gets fine, and I wish pure luck and great satisfaction for the chosen winners.

Once again, thanks to ?L???L? for this great thread and to all other contestants for being a part of it...

Why do i deserve UBER? (i have been accepted by omni)

I have multiple reasons I want UBER. I always do my best to post quality. I always tried to help all hackforums member irrespect of leet or uber or normal member. I do not make hate/flame threads. If I see a thread where someone asks for help I check it and try to find a solution for the problem, if I can't find a solution I don't make a useless post to get my post count up. My main language is not English so you might notice it isn't perfect English but i try my best. I try to contribute as much as possible, if I get picked to be UB3R I am planning to do a mass giveaway (as i am being doing). I also want uber because I can do something extra back to people who help me by giving them rep. I think I am a contribution to the forum and I am no leecher. All the small things help I think. Such as clicking adf.ly links or signing up as referral instead of non referral. I hope all those things will make you feel I deserved the UBER.

My contributions

There is bunch of list of what i contributed to hackforums , like long thread of free giveawayz , providing free service , alwayz trying to help whomsoever i can. I have been a legit seller\buyer of some steam or premium accounts :)

I believe that I deserve ub3r because I'm a nice member, I'm always there to help, I like to give things away (just check all my threads), I report threads that are against the rules or suspicious threads like this one:

<https://hackforums.net/showthread.php?tid=1286245&pid=11859925#pid11859925> , because I'm really dedicated to this forum; but well, it's your choice. I got accepted to uber 4 months ago, but I couldn't get it though. (:

Matt Bomer™ - May 13, 2011, 5:03 am

I have multiple reasons I want to be ub3r. I am a member for a really long time now and I always do my best to post quality. The whole period I was on Hackforums I never flamed someone or offended someone in any form. I am not a racist and I do not make hate/flame threads. I am here to help people, to learn and to have fun. If I see a thread where someone asks for help I check it and try to find a solution for the problem, if I can't find a solution I don't make a useless post to get my post count up. I always try to use good grammar and act like an adult. My main language is not English so you might notice it isn't perfect English. I also try to bring some fun in the forum by posting in the lounge, however I can only post 20 posts max in 24 hours. I really want to give more join in the lounge but just can't because of the restrictions. I also am in the computer section just to help other people. Most problems I encounter are problems I can solve on my own. Because I am interested in computer stuff I visit the computer section to help and gain more knowledge. I try to contribute as much as possible, if I get picked to be ub3r I am planning to do a mass giveaway. Maybe in pr0n or uploading websites such as # or something. I also want unb3 because I can do something extra back to people who help me by giving them rep. If you give you you would be the first that receives +rep from me. I think I am a contribution to the forum and I am no leecher. All the small things help I think. Such as clicking adf.ly links or signing up as referral instead of non referral. I hope all those things will make you feel I deserved the ub3r.

Fi?is - May 13, 2011, 7:12 am

I'd like to nominate [Hookah](#).

Where to start... Well first of all, he's new here. (Joined 4 days ago)

In his 40 combined posts in the last few days, he's already earned +15rep which is absolutely astounding. (And possibly an HF record??)

He's already doing giveaways and contributing to the community.

Hands-down, one of the Top 5 nicest guys on HF.

When I "donated" him \$5 (for going out of his way to explain a doxing method free) he promptly sent over a 48hour code, just to say thanks.

On top of everything, he's such a nice, chill guy and a pleasure to talk to! Definitely an HQ member, and hopefully he'll stick around for a while!

So please, consider honoring him with the gift of l33t, it's the least you could do.

I have multiple reasons I want UBER.I always do my best to post quality. I always tried to help all hackforums member irrespect of leet or uber or normal member.I do not make hate/flame threads. If I see a thread where someone asks for help I check it and try to find a solution for the problem, if I can't find a solution I don't make a useless post to get my post count up. My main language is not English so you might notice it isn't perfect English but i try my best.I try to contribute as much as possible, if I get picked to be UB3R I am planning to do a mass giveaway (as i am being doing).I also want uber because I can do something extra back to people who help me by giving them rep. I think I am a contribution to the forum and I am no leecher. All the small things help I think. Such as clicking adf.ly links or signing up as referral instead of non referral. I hope all those things will make you feel I deserved the UBER.

My contributions

There is bunch of list of what i contributed to hackforums , like long thread of free giveawayz , providing free service , alwayz trying to help whomsoever i can. I have been a legit seller\buyer of some steam or premium accounts :)

I nominate [Transient](#)
for this , I think he deserves it.

masterfan - May 13, 2011, 7:59 am

I think that I deserve the ub3r the most because I've helped a lot of newcomers and old users here(gave away premium accounts if they asked,helped them with rats,cripting,javadriveby and a lot more).I'm not in situation of buying myself ub3r so this is my only chance to win it(competition).I've gained big knowledge here on HF and used it to help.I'm really proud of what I've done so far.I'm here since 2009 and got my l33t this year.I'm not that spamming type of guy.I keep my posts HQ.That's kinda it.Its up to you to decide who's gonna win ub3r.Hope I'll get some luck this time.Cheers bro!

Begginer - May 13, 2011, 8:06 am

I deserve L33t because I'm good at rats, grammar (st not), Have some reps, I'm member of some groups, I am here form June 2010
The main reason I love you ?

about 5 hours to go I CANT WAIT!!!! :D

Lonavista - May 13, 2011, 9:19 am

I really like to get Ub3r for many reasons :

- 1)First its my goal.
 - 2)To help more HF members.
 - 3)Release more tutorials for all members.
 - 4)I've released many tutorials in HF and made a free ".com/.net.org domain" contest.
- I'd like to win an ub3r since I don't have any cash for it :S. Its your choice at the end :D:D.
P.S: My posts are low but my reputation seems good between HF members :D.
Thanks,
Lonavista~

surveillance - May 13, 2011, 9:57 am

I deserve l33t. This is because i am truly a quality member on these forums.

The thing is i truly LOVE hackforums, and plan on being a member here for a loong time. The forum is much more high-quality than most with much more mature, caring, and all around decent members. I also have accomplished a plethora of tasks by using this website. I have educated myself about the dark world of hacking ;) When I joined I thought DDOSing kids were l337 h4x0rz. Now i know this is false. I currently have my own RAT setup with about 50-75 slaves on and off, and the best part is I crypted it myself! All around this is the best forums i have ever been a part of, and it is by a longshot. If you look at my posts I know you will see that what I say is true.

P.s. I know you don't really care but, I have been on here for 6-7 months it's just I recently decided to make a new account and become active. (My old account was named beastmonger1)

_H@_C0{R} - May 13, 2011, 10:04 am

OK why i need i this is just because i want to access what all leet and uber got. And also i am contributing to HF still not much but ,going to come up with some good tut's the first and one and only is going great)

Now about my plan-->1.get leet
2.take advantages of leet services
3.infect people
4.get money out of it ...how?? i know it
5.make money and contribute to HF with money
6.make your "L33T" worth...;)

I Don't do Free Giveaways to UBERs and LEETs
Nor Do I have a Zillion Posts

But I am a useful Guy in the Wifi Section

I have helped a Lotta Friends on HF

I Only make say 3 Posts a Day.. But all those are useful Quality Posts.. none of them are crap-posts to increase my post count.. Sometimes it sucks when they need 500+ posts for me to Qualify.. But still I prefer making HQ posts..

I love to help.. You could Look @ my Rep.. No Neg Reps and My rep is because I helped 'em not because I know 'em or something..

Overall I am a Funny Guy and Don't Suck @ Grammar..lol

Also, what you are doing is highly appreciated.. :)

Hey, i'd like to apply if possible , tho i see i lated about 9 mins >.< :D Now you may think that i am just a new here and asking for free stuff and so but i don't think that's true :) The account is really new, you can ask why if you want, but i don't wanna tell " sub-stories ":

Why i deserve : Because i helped the community a lot with previous acc, and with that, i also have services open for helping members with their stuff. (Soon coming more , like my PF+problems tutorial, the ask anything that you don't know, and so on, when i will be about to repost it, but nowadays i am busy with helping guys out with their problems :))

I am also about to start a group (will be for helping community , no more details of it :D , and yea un-official..:)) but without l33t that would be hard to gain trust and so .

Good luck to everyone, as i have a very low chance for winning it, i say congratulations to the 7 winners ^^

Name: Jack Sparrow

Profile Link: <https://hackforums.net/member.php?action=profile&uid=476562>

You want to upgrade to: Ub3r (I has been accepted)

Why they deserve this: I have earned the privilege to be upgraded to ub3r because I am an outstanding and high quality member. Sure I has some rather dick posts, but they are straight forward and honest. I don't fake my opinion to seem nice or to seem like a bad ass. I am also an amazing programmer that is working hard on quite a few programs specifically for l33t/ub3rs only, including a multi-tool (Binder, Crypter, Keylogger/Stealer, booter) and a private DDoSer/RAT. I am member who is working hard on finding ways to contribute to other members, but I want to give to the members who have earned it, to some extent at least. I would upgrade to ub3r myself, but my family is going through some tough times and I am hoping to make a good reputation for myself on this forum so that I can start making some money (via the marketplace) but I need a little kick start. I do hope you consider me for ub3r, I believe I deserve it.
