Thread: [Free beginning booter!](#)

Portland Timbers - May 13, 2011, 7:55 pm

Well I just started making online booting programs and got about 250 shells. They are not very strong but I hope with this people will notice it.

Before we start: "I Am Not Responsible For Any Of your actions! This Program was Made For "Educational Purposes ONLY" I wont be held for any of your actions" "If you are caught booting IP's that I know you should not be booting you WILL be banned"

Proof:

Just Post below in this format:

Username:

Password:

Email:

Also if you are ub3r or l33t or can donate over 10 shells you will be activated in the first 24 hours. If not I am sorry but I have a busy life and you know how things are. All others may wait up to 3 days before being activated. If you are a regular member you MUST have +10 rep and or +300 posts as I don't want leechers to use this.

Also, donating 200+ working shells gets you admin powers or staff.

LOL, my bad guys. Just give me a username and email and I will make you a password. And nobody so far has complied with the OP so nobody gets the booter ATM.
